FOUNDATION YEAR

The preparatory training course for students who wish to study in Italy

FOUNDATION YEAR
The preparatory training course for students who wish to study in Italy

The **Foundation Year programme** is a one-year pre-university curriculum aimed at international students who wish to study in Italy.

Its aim is to:

- fill in any educational gaps in the fundamental subjects assessed in the admission tests to the 6-year Masters Degree Programme in Medicine and Surgery and to the 3-year Bachelors Degree Course in Biomedical Engineering.

- improve the Italian/English language skills for academic purposes.

WHEN: From October to May

COURSE LANGUAGE: English/Italian

AVAILABLE PLACES: 15 places for Medicine and Surgery - 5 places for Biomedical Engineering

ENROLMENT: The call is open during two periods per year: From February to April and from May to June

Admission

Admission to the Foundation Year is based on the merit ranking defined according to the school grades achieved by each candidate and calculated as specified below:

- School grades (up to 10 points);
- Online interview based on what stated in the application and verification of knowledge of the English Language (up to 30 points).

For the enrolment procedure please see the Foundation Year Programme Call For Admission.

Recipients

- Non-EU students who wish to enroll in Italian Universities
- Non-EU students who have failed to pass the admission tests and wish to try again in the following year, specifically working on their knowledge gaps, improving their chances of passing the admission test.

Tuition Fee

The total cost of the Foundation Year programme is € 6,000.00 (six thousand/00), divided into two instalments.
