

Call for applications for the assignment of 1 research fellowship grant for carrying out Category B research activities, as per Article 22 of Italian Law No. 240/2010, for the Scientific Disciplinary Sector of MED/49 – Food and Dietetic Sciences, at the facilities of the Centro Integrato di Ricerca (CIR - Integrated Research Centre) and of the Departmental Faculty of Science and Technology for Sustainable Development and One Health of Università Campus Bio-Medico di Roma.

Call Code: ASS-RIC/14_23

Departmental Faculty	Science and Technology for Sustainable Development and One Health
Research theme	Mapping of dietary patterns in European countries
Brief description of the research	The knowledge of dietary patterns among different population groups is important for establishing a connection between diet, nutritional status, and diseases, as well as for identifying groups at risk of inadequate or excessive consumption of specific foods and nutrients. The project aims to create a mapping of dietary patterns in the participating European countries. Differences and specificities of local and/or national dietary patterns will be analyzed concerning factors such as age, gender, socioeconomic status (SES), critical foods, culture, region, and country. Strengths and weaknesses will be highlighted. Initially, the project will involve the identification of existing data sources, followed by the adaptation of different datasets for the purpose of mapping. Subsequently, data collection and the creation of an integrated database will be carried out.
Scientific Supervisor	Prof. Yeganeh Manon Khazrai
Scientific Disciplinary Sector	MED/49 – Food and Dietetic Sciences
Language knowledge and skills	Excellent knowledge of spoken and written English
Date of the interview	7th December 2023, at 9:00 am Remote candidates on Microsoft Teams platform
