

**CALL FOR ADMISSION TO THE FIRST YEAR**  
**Bachelor's Degree Course in Biomedical Engineering (L-8)**  
**A.Y. 2024/2025**

**1. GENERAL INFORMATION**

This document is only the translation of the call for admission issued by the Rector's Decree on 12<sup>th</sup> December 2023, no. 738 for the Bachelor's Degree Course in Biomedical Engineering. The Italian version is the official document regulating this call. The document written in English has no legal value. In case of conflicting issues between the English and the Italian version, the Italian version prevails.

Admission to the first year of the Bachelor's Degree Course in Biomedical Engineering is regulated by selective procedures. The competition aims to select at most **60 candidates, of which 25 positions** for non-EU applicants exclusively (citizens of countries not belonging to the European Union) and not resident in Italy.

Admission to the first year of the Bachelor's Degree Programme in Biomedical Engineering, a.y. 2023/2024 is regulated by the following sessions and by the methods that are specified in the following:

**I SESSION AND "PERCORSO DI ECCELLENZA" WITH SCHOLARSHIP**

In the context of the I Session, the selection of 2 students to access the "Percorso di Eccellenza" of the Biomedical Engineering Course is foreseen. Each winning candidate will receive the assignment of a scholarship to fully cover the tuition fee for the entire 3-year study period.

The "Percorso di Eccellenza" aims to reward students according to merit criteria. Students admitted to the "Percorso di Eccellenza" will benefit from the support of a referent lecturer and will devote themselves to additional and complementary training activities. All training activities provided by the "Percorso di Eccellenza", which may also be carried out abroad through the Mobility Programme "Erasmus", requires a minimum annual commitment of the student of 4 CFUs in the 1<sup>st</sup> and 2<sup>nd</sup> year of the course, but does not give rise to the recognition of CFUs to obtain the University Degree issued by the University Campus Bio-Medico of Rome. Students will receive instead a certificate of completion of the "Percorso di Eccellenza", which will be recorded in the student's career in terms of extracurricular CFUs that will be included in the Diploma Supplement.

Selected students will benefit from:

- a scholarship to fully cover the tuition fee for the entire 3-year study period;
- about 30-hours of English course to improve language skills (**provided on request**)
- activities organised in cooperation with other academic institutions or international organisations.

Only for the I Session, the **first** candidate in the ranking reserved for **non-EU candidates** resident abroad will be awarded a scholarship of **1 (one) scholarship covering the 50%** of the tuition fee for admission for the Bachelor's Degree in Biomedical Engineering for the academic year 2024/2025. The scholarship is financed by the University Campus Bio-Medico of Rome, aimed for admission to the Bachelor's Degree Course in Biomedical Engineering.

**The maintaining of the benefits are subordinated to an annual verification of specific requirements set out in Annex A.**

It is the candidate's own responsibility to check all notices regarding the competition procedure published on the University's website at <https://www.unicampus.it/it/info/ammissioni-corsi-laurea>.
