

**CALL FOR ADMISSION TO THE FIRST YEAR
RESERVED FOR NON-EUROPEAN CANDIDATES NOT RESIDENT IN ITALY**

***Master's Degree Programme in Medicine and Surgery (LM-41)*
*Master's Degree Programme in Medicine and Surgery- "MedTech" (LM-41)***

A.Y. 2026/2027

1. GENERAL INFORMATION

This document is only the translation of the call for admission issued by the Rector's Decree on 28th November 2025, no. 612 for the Master's Degree Programmes in Medicine and Surgery and Medicine and Surgery- "MedTech". The Italian version is the official document regulating this call. The document written in English has no legal value. In case of conflicting issues between the English and the Italian version, the Italian version prevails.

Admission to the I year of the **Master's Degree Programmes in Medicine and Surgery and Medicine and Surgery- "MedTech"** for the academic year 2026/2027 is regulated by a selective procedure based on the following available places as indicated below. This procedure is reserved for non-European citizens not resident in Italy who need a long stay visa.

- **36 places available for the Master's Degree Programme in Medicine and Surgery;**
- **12 places available for the Master's Degree Programme in Medicine and Surgery- "MedTech".**

The number of available places may vary in accordance to the Decree of the Ministry of University and Research (M.U.R), pursuant to the provisions of Law n. 264, August 2nd, 1999. The Decree will be published on the website <https://www.unicampus.it/it/info/ammissioni-corsi-laurea>. In case of a reduction of the number of available places as a result of the ministerial assignment, the candidates enrolled on the basis of the procedures set out in this call for admission will forfeit and compete for any available places in the modalities provided for eligible candidates.

The selective procedure consists in a written test, scheduled for 6th February 2026, telematically with remote monitoring, in accordance with the procedures set out in Annex A, integral part of this call for admission.

Candidates may compete with the score obtained in the written test for either one and the other course. Therefore, to compete for both Courses - admission to the Master's Degree Programme in Medicine and Surgery and/or admission to the Master's Degree Programme in Medicine and Surgery - "MedTech" - it is necessary to complete two separate online registrations for the admission test, one for each degree course, by the deadlines and manners set out in Article 4 below.

The *reallocation* procedure (tbc) can only be activated by the deadlines and manners set out in Article 8 of this call and only in case of remaining places.

It is the candidate's responsibility to check all notices regarding the competition procedure published on the University's website at <https://www.unicampus.it/it/info/ammissioni-corsi-laurea> in the dedicated sections to admission to the Degree Programmes of interest.

2. APPLICATION REQUIREMENTS

2.1 CITIZENSHIP AND EDUCATIONAL QUALIFICATION

The only candidates who can participate in the enrolment procedure are exclusively non-EU citizens not resident in Italy, who have obtained or will obtain in the academic year 2025/2026 a valid qualification to access to University in their country of origin, in accordance with the provisions published annually by the Ministry for Education, University and Research on the website www.studiare-in-italia.it/studentistranieri.

The only academic qualification is the one obtained after at least 12 years of schooling. Candidates who have obtained an educational qualification from a foreign school system are obliged to provide a Declaration of Value (*Dichiarazione di Valore*) issued by the Italian diplomatic representations or, alternatively, a comparability certificate issued by the Information Centre on Academic Mobility and Equivalence (CIMEA).

In case the local school system only provides for 11 or 10 years of schooling, the academic qualification is only valid if integrated with one or two years of university (in this case the candidate must prove to have passed successfully all the exams required for the years attended). The Foundation Year course at University Campus Bio-Medico of Roma is also recognised, for this purpose, but only if the candidate has passed the relevant exams.

The following candidates are not eligible for selection under this call for admission:

- citizens with dual nationality, i.e. one Italian or another one from another EU country;
- non - EU citizens regularly resident in Italy;
- citizens of Norway, Iceland and Liechtenstein, Switzerland, the Republic of San Marino and Holy See, shall be treated in the same way as EU citizens.

The aforementioned candidates must compete in accordance with the terms and conditions set out for admission procedures reserved for EU citizens, published on the website <https://www.unicampus.it/it/info/ammissioni-corsi-laurea>.

Candidates applying for this call violating the aforementioned citizenship requirements will not be included in the merit ranking.

Please note that pre-enrolment at the university does not in any way guarantee an appointment at the diplomatic-consular offices for the submission of visa applications.

It should also be noted that, as already stated in the ministerial circular entitled 'Procedure per l'ingresso, il soggiorno, l'immatricolazione degli studenti internazionali e il relativo riconoscimento dei titoli, per i corsi della formazione superiore in Italia valide per l'anno accademico 2025-2026' ('Procedures for the entry, stay, enrolment of international students and the related recognition of qualifications for higher education courses in Italy valid for the academic year 2025-2026') on page 7, the prior acceptance of a candidate by the university does not confer any right to obtain a visa, given that the issuance of study visas is the exclusive responsibility of the individual diplomatic-consular representations.

2.2 KNOWLEDGE OF ENGLISH LANGUAGE

Admission to the Master's Degree Programmes in Medicine and Surgery and Medicine and Surgery-“MedTech” **requires the knowledge of English, at least B2 level of CEFR attested by one of the language certifications exclusively listed in Annex B**, integral part of this call for admission.

- candidates who are in possession of one of the language certifications exclusively listed in Annex B** must attach the certification in the appropriate field of the online application platform before paying the registration fee. After payment, the application can no longer be modified;
- candidates who have not attached one of the language certifications exclusively listed in Annex B** in the relevant field of the online application platform by the deadline set out in letter a) **can take the test but will be marked with an asterisk in the MERIT RANKING**. Those candidates, winning and eligible and marked with an asterisk, **have to send their language certification to admission@unicampus.it no later than:**
 - **19th June 2026**, for candidates who took part in the test on 6th February 2026;
 - **10 working days after publication** of the merit ranking (excluding Saturdays, Sundays and public holidays in Italy), for candidates who took part in the *reallocation Session* (tbc).

Statements of equivalence will not be accepted even if they are issued by Certifiers listed in Appendix B, nor will certificates of attendance or participation of the test be accepted.

Candidates who do not present the language certification or who present a different certification from those exclusively listed in Annex B, will be excluded from the enrolment procedure.

Furthermore, eligible candidates will be excluded to complete the enrolment process if:

- they do not upload or send correctly a language certification by the above described deadlines and manners;
- they upload or send a language certification different from those exclusively listed in Annex B.

The registration fee for the admission procedure is not refundable for any reason and there will be no reimbursement of the tuition fee paid except in cases expressly provided for in this Call. Applicants are therefore invited to obtain on time a language certificate among those listed in Annex B.

It is the candidate's own responsibility to verify that the provided certification is one of those exclusively listed in Annex B.

3. CANDIDATES WITH LEARNING DISABILITIES (SLD) AND OR DISABILITIES

Candidates with invalidity and disabilities, pursuant to Law 104/92, and candidates with learning disabilities, pursuant to Law no. 170/2010, who require special conditions or special aids for the examination, must explicitly insert their request in the online application. They have to attach the related certification proving the disability or SLD level, issued in the country of residence and accompanied by a sworn translation in Italian or English that specifies the essential elements regarding the aforementioned benefits in order to enable the University to prepare accordingly to guarantee an equal participation in the tests.

The University reserves the right to verify the candidate's certification and undertakes to inform the candidate, in due time for the test, of the aids granted. Only certifications produced in Italian or English will be considered.

3.1 CANDIDATES WITH INVALIDITY OR DISABILITIES

Candidates with invalidity or disabilities, pursuant to Law 104/92, who attached the related proving certification, stated in the art. 4 of the Call, will benefit from **additional time** for the written test, **not exceeding the 50%** of the regular time that is 1 hour and 50 minutes. Candidates can request additional aid by explicitly indicating it in the online application. The University may provide:

- An enlarged format of the written test (valid only for visual disabilities);
- A transcriber or a reading tutor (subjected to certification assessment).

3.2 CANDIDATES WITH LEARNING DISABILITIES

Candidates diagnosed with specific learning disabilities (D.S.A.), pursuant to Law no. 170/2010, who produced the related proving certification stated in the art. 4 of the Call, that must be no older than 3 years from the date of publication of this Notice and must clearly report the diagnostic summary and the relevant nosographic reference codes of the specific certified disorder, are entitled to **additional time, not exceeding the 50%** of the regular time that is 1 hour and 50 minutes. Candidates can request additional aid by explicitly indicating it in the online application. The University may provide:

- A not-scientific calculator (will be provided during the test, valid only for learning disabilities regarding the area of calculation or in response to a specific prescription in the diagnosis);
- A reading tutor (subjected to certification assessment);
- An enlarged format of the written test (subjected to certification assessment).

4. **REGISTRATION PROCEDURE**

Candidates may compete with the score obtained in the written test for either one and the other course, for admission to the Master's Degree Programme in Medicine and Surgery and for admission to the Master's Degree Programme in Medicine and Surgery -"MedTech". However, it is necessary to complete two separate online registrations for the admission test, one for each degree course, by the deadlines and manners set out in Article 4 below.

The application form must be submitted exclusively online by clicking on the appropriate button on the website <https://www.unicampus.it/it/info/ammissioni-corsi-laurea> from **1st December 2025 and not later than 28th January 2026, 1.00 p.m. (CET)**.

Registration for admission requires performing all the following actions from 1 to 4 **by the aforementioned deadline**:

1. Registration on the online portal and creation of credentials (username and password)¹;
2. Registration confirmation on the portal through the link that the candidate receives by email;
3. Access to the portal with the candidate's credentials and filling in the application form by the aforementioned deadlines;
4. Online payment, by credit card, of the registration fee for the admission test of **€ 100,00** (one hundred/00).

By following steps from point 1 to 4, the registration procedure is considered completed. Once all the mandatory fields of the registration form have been completed, the payment of the registration fee is automatically enabled.

The candidate receives an email containing the link to confirm the creation of the portal access credentials and then, if correctly filled in the application form and made the online payment, a further email confirming that the application has been submitted. The application is submitted only if received the confirmation of the online payment. At this point, the registration can no longer be modified.

An application that has not been submitted correctly is in any case considered incomplete and does not permit the participation in the competition. The registration fee for the test is not refundable under any circumstances.

It is the candidate's responsibility to check the correct insertion of the data requested by this Call and/or by the online registration platform. The insertion of untruthful or incorrect data, or failure to enter the same, will result in exclusion from the procedure and from the final ranking. The University Campus Bio-Medico of Rome reserves the right to carry out the necessary checks on the declarations made by the candidate

The list of **candidates admitted to the written test** will be published on the University website at <https://www.unicampus.it/it/info/ammissioni-corsi-laurea>, **by 3rd February 2026**.

A simulator of the written admission test will be available on the registration platform. The candidates may use the simulator for practice purposes.

5. **WRITTEN ADMISSION TEST**

The **written admission test**, entirely in English, will be held *telematically with remote monitoring* in accordance with the procedures set out in Annex A on **6th February 2026 at 2.00 p.m. (CET)**.

The test lasts **1 hour and 40 minutes and consists of 60 multiple-choice questions: Biology (20 questions), Chemistry (20 questions) and Physics (20 questions)**.

The programmes relating to the questions are contained in Annex C to this call for admission.

Each candidate can finish the test before the maximum time limit expires, by selecting the "close the test" option,

¹Even candidates who already have credentials due to participation in previous procedures must register again.

For technical issues regarding the online registration to the test, please contact the technical assistance by clicking on "Technical Support" on the online registration platform (button on the bottom of all the pages).

or using all the available minutes. In both cases, the examination platform records and saves every action taken up to the last available moment. During the test, the use or consultation of any tools or devices - electronic or otherwise – different from those strictly provided for in Annex A are prohibited.

Points are assigned as follows:

- 1 point for each correct answer;
- 0,2 point for each incorrect answer;
- 0 points for each not given answer.

The highest achievable score in the written test is a maximum of **60 points**.

6. ADMISSION TO THE MASTER'S DEGREE PROGRAMMES

Admission to the Master's Degree Programmes is based on the merit rankings, one referred to the Master's Degree Programme in Medicine and Surgery and one to the Master's Degree Programme Medicine and Surgery- "MedTech". The rankings are based on total achieved score, in sixtieths, which will determine the position in the final merit ranking.

Candidates with a total score of not less than 10/80 are considered eligible for admission to the first year. In the event of an equal final score, the candidate with the highest score in the Logic questions prevails; in the event of a further tie, the candidate with the highest score in the Biology, Chemistry, Mathematics and Physics questions prevails. In the event of a further tie, the candidate with the youngest age prevails.

The **merit ranking**, in order of score is issued by Decree of the Rector and published on the university website on <https://www.unicampus.it/it/info/ammissioni-corsi-laurea>, by **13th February 2026**.

Each candidate can verify their position in the ranking list by means of the code assigned at the time of registration for the competition procedure from the online platform and referred to as "Unique ID".

7. ENROLMENT PROCEDURE

7.1 PHASE I

To enrol correctly, each winning candidate has to perform the following actions **no later than 10 working days after the publication of the merit ranking** (excluding Saturdays, Sundays and Italian public holidays). To enrol correctly, each candidate has to follow the "enrolment instructions" that will be published on the following website <https://www.unicampus.it/it/info/ammissioni-corsi-laurea>:

- a) create the student's credentials on the University platform;
- b) with the student's credentials, login to the reserved area and pay of € 8.000,00 (eight thousand/00) equal to the amount of the first tuition fee²;
- c) send or hand in – **no later than 10 working days after the publication of the merit ranking** (excluding Saturdays, Sundays and Italian public holidays) – to segreteriastudenti@unicampus.it the payment receipt of the first instalment of the tuition fee;

² The amount of the second instalment of the tuition fee must be paid by 25th January 2027; the amount of the third instalment of the tuition fee must be paid by 12th April 2027. The amount of the regional tax for the right to higher education may vary according to the deliberations of the Lazio Region. Bank charges for the arrangement of transfers are not included in the amount of the instalment. In the event of discrepancies between amounts or deadlines of the instalments reported in this call for admission and in the provisions of the Regulations for fees and contributions for the 2026/2027 a.y., published on the website <https://www.unicampus.it/ammissioni-corsidi-laurea/tasse-e-contributi/>, the second one prevails.

³ The candidate who is not already in possession of the copy of the educational qualification accompanied by an official translation and legalization issued by the Italian diplomatic authorities, must produce it **by 25th of September 2026**, together with the declaration of value,

The winning candidate who does not carry out all the operations referred to in the aforementioned points a), b) and c) within 10 working days after the publication of the merit ranking (excluding Saturdays, Sundays and Italian public holidays), shall be automatically deemed withdrawn.

Eligible candidates compete for any remaining places (not allocated to winning candidates) according to the merit ranking order.

Eligible candidates shall be informed about the remaining places with a public notice published on the University website: <https://www.unicampus.it/it/info/ammissioni-corsi-laurea>.

Notice of remaining places is normally published on Tuesdays and Fridays (except for Italian holidays). The notice indicates the positions in the merit ranking that are allowed to enroll and the date from which the candidates have to communicate the acceptance of the offered place.

Within 5 working days (excluding Saturdays and public holidays in Italy), eligible candidates proceed with the enrolment procedure following the steps established by the above-mentioned points a), b) and c).

The eligible candidate who does not complete all the required steps established by points a), b) and c) within the aforementioned deadline of 5 working days is automatically deemed withdrawn.

It is the candidate own responsibility to check in due time the communications published by University on the website.

7.1 PHASE II

Candidates who have completed PHASE I of the registration in the terms and conditions above and within the number of available places, proceed to the registration-PHASE II **from 10 July 2026 and no later than 13.00 CEST on 24 July 2026** by taking the following actions and following the "registration instructions" which will be published by the date defined for the opening of registrations on the web page of the competition accessible from <https://www.unicampus.it/it/info/ammissioni-corsi-laurea>:

- e) access the student's reserved area on the University platform and pay € 140.00 (one hundred forty/00) equal to the amount of the regional tax for the Right to higher education ⁴;
- f) send or hand-deliver to Student Services Office by mail to segreteria.studenti@unicampus.it the following documents:
 - the payment receipt of the regional tax for the Right to higher education;
 - the enrolment form duly completed and signed in all its parts;
 - **a copy of the educational qualification**, accompanied by an official translation and legalization issued by the Italian diplomatic authorities, **eventually accompanied by a declaration of value in the case of foreign diplomas** or, alternatively, the comparability attestation issued by the Italian ENIC-NARIC centre (CIMEA);
 - the withdrawal from studies or no impediment to transfer in case of previous enrolment in another University, according to the applicable legislation.
- g) In any case, the enrolled student is required to submit or transmit to the Students' Office - **no later than 25 September 2026** - the **declaration of value** of the degree obtained abroad, complete with information on the system for evaluating the diploma in the country of achievement (overall grade, minimum and maximum attainable grade) or, alternatively, **certification issued by the Italian ENIC-NARIC centre (CIMEA)**.

The enrolment is considered conditional until the submission of the documentation referred to in e) and f) by 13.00 hours CEST on 24 July 2026 and, if not produced earlier, the declaration of value of the diploma obtained abroad or, alternatively, of the attestation issued by the Italian ENIC-NARIC centre (CIMEA) no later than 25 September 2026 (letter g).

as indicated in points e) and f) of this article.

⁴ The amount of the regional tax for the Right to higher education may vary according to the deliberations of the Lazio Region.

In the absence of such documentation, these candidates will be deemed withdrawn.

The amount of the first instalment can only be refunded to:

- candidates who do not obtain the High School Diploma in the school year 2025/2026;
- candidates who do not obtain by the competent authorities a long-stay visa for study purposes;
- candidates, enrolled under conditions, who, as a result of the reduction in the number of places assigned annually by the Ministry for Education, University and Research, cease to be enrolled.

8. REALLOCATION PROCEDURES (TBC)

By the 19th of June 2026, the presence of any remaining places will be published on the University's website <https://www.unicampus.it/it/info/ammissioni-corsi-laurea>. 9. ADDITIONAL LEARNING OBLIGATIONS (OFA)

The written test for the admission to the Master's Degree Course aims to assess the previous knowledge necessary to grant the profitable attendance to the course.

Thus, in order to help the student and to fill possible gaps in previous knowledge necessary to cope with some of the exams of the first year, all the students who have completed their enrolment in accordance with the call for admission, have to take a further test. This test aims at verifying any Additional Educational Obligations (OFA) in Mathematics, Physics and Chemistry.

Candidates who do not answer correctly to at least the 60% of the questions (for each subject) are admitted with OFAs for the subject they didn't pass the threshold. In particular, OFAs must be filled before taking the relative exams foreseen in the study plan and in any case within the first year.

Alternatively, OFAs are considered fulfilled successfully passing the relevant related exams.

10. SUMMARY OF TERMS

The main terms of the procedure are summarised below. For all stages of the procedure, the candidate shall rely on the extended points of the call for admission.

4. **Test day:**
 - a) during the time slot indicated for identification, the candidate must activate the tools necessary for the control and the conduct of the examination and perform the identification operations, managed through an automated procedure. It is the responsibility of the candidate to have available a valid identification document;
 - b) the link to access the test is activated no earlier than 14.00 P.M (CET);
 - c) the supervisory staff supervises the proper conduct of the test via webcam.
5. In order to be able to take the admission test referred to this call for admission, it is necessary to have the following specific hardware and software requirements:
 - a) Hardware:
 - Computer/Laptop (PC or MAC) with webcam, microphone e speakers;
 - Smartphone/Tablet.

Both devices are simultaneously required for the performance of the test.
 - b) Software and Internet connection:
 - Operating System Computer/Laptop: Windows 8 or subsequent systems, Linux, MAC-OS 10.12 or subsequent systems;
 - Browser: it is mandatory to use GOOGLE CHROME (version 81.0 or subsequent updates);
 - Internet connection: minimum upload and download speed of 1 Mbps.
 - Smartphone or tablet (Android min v.4.1 - IOs min. v.8) equipped with video camera.
6. It is also required to download an APP to the candidates smartphone/tablet (34MB) from Google Play or App Store. Connecting to a Wi-Fi line is recommended.
7. Candidates who arrive after the closing of the identification procedures are not allowed to access to the test, assuming no relevance to the justification of the delay. In case of technical problems on the test day (e.g. a breakdown in the network infrastructure), foreclosing candidates from completing the test, the University reserves the right to set up a special session exclusively for those candidates.
8. The exam platform records and saves every interaction (audio and video recording and screen sharing). During the course of the test, the Supervisory Committee will have access to all interactions of each candidate. The records will also be available to the Commission after the test is concluded. Data is acquired from servers located in the European Union and stored for a period of 12 months.
9. The examination platform provides a timer that automatically resets the actual time, in any case of anomaly. Therefore, any technical problems that may occur on individual computers will be handled promptly by the technical assistance staff.
10. It is absolutely forbidden the use of cell phones, calculators, tablets, online-enabled devices, printed books, manuscripts and notes during the test. The candidate can use some blank sheets of paper and a pen to perform calculations.

Candidates who have attended a secondary school/university entirely taught in English for at least one academic year are exempt from submitting a language certification. (Education taught in English, limited to only certain subjects, even for several consecutive academic years, does not qualify for exemption.)

These candidates must submit, within the deadlines and according to the procedures for submitting language certification, a certificate of attendance issued by the secondary school/university, explicitly stating the period of attendance and the language in which the courses were taught.

Syllabus regarding the content of the Admission Test

The knowledge and the skills required are, however, those promoted by educational institutions that organize educational and teaching activities consistent with the Ministerial Programmes, especially in view of the State Examinations and also refer to the scientific disciplines of Biology, Chemistry, Physics, and Mathematics.

Biology

- The chemistry of living organisms.
- The biological importance of weak interactions.
- The organic molecules found in living organisms and their functions.
- The role of enzymes.
- The cell as the basis of life.
- Cell theory. Cell size. The prokaryotic and eukaryotic cell in animals and plants. Viruses.
- The cell membrane: structure and functions - transport through the membrane.
- Cellular structures and their specific functions.
- Cell cycle and cell division: mitosis and meiosis - chromosomes and chromosome maps.
- Bioenergetics.
- The energy assessment of cells: ATP.
- Redox reactions in living organisms.
- The energetic processes: photosynthesis, glycolysis, aerobic respiration and fermentation.
- Reproduction and heredity.
- Life cycles. Sexual and asexual reproduction.
- Mendelian Genetics. Fundamental laws and applications.
- Classical genetics: chromosome theory of heredity; patterns of heredity.
- Molecular Genetics: structure and replication of DNA, the genetic code, protein synthesis. The DNA of prokaryotes. The structure of the eukaryotic chromosome. Genes and regulation of gene expression.
- Human genetics: transmission of mono- and multifactorial characters; hereditary diseases linked to the X chromosome and autosomal
- Biotechnology: Recombinant DNA technology and its applications.
- Heredity and environment.
- Mutations. Natural and artificial selection. Evolutionary theories. The Genetic basis of evolution.
- Anatomy and physiology of animals and man
- Animal tissues
- Anatomy and physiology of systems and equipment in humans and their interactions.
- Homeostasis.

Chemistry

- The constitution of matter: states of matter; heterogeneous systems and systems homogeneous; compounds and elements.
- Ideal Gas Laws.
- The structure of the atom: elementary particles; atomic number and mass number, isotopes, electronic structure of atoms of different elements.
- The periodic system of elements: groups and periods; transition elements; periodic properties of the elements: atomic radius, ionization potential, electron affinity; metallic character. Relations between electronic structures, position in the periodic system of elements and properties.
- Chemical bonding: ionic bonding, covalent bonding, and metallic bonding. Energy binding. Polarity of bonds. Electronegativity.
- Fundamentals of inorganic chemistry: nomenclature and main properties of inorganic compounds: oxides, hydroxides, acids, salts.
- The chemical reactions and stoichiometry: molecular and atomic mass, Avogadro's number, mole concept and its application, stoichiometry elementary balance of simple reactions, the different types of chemical reaction.

- Solutions: solvent properties of water; solubility; The main ways of expressing the concentration of solutions.
- Equilibria in aqueous solution.
- Elements of chemical kinetics and catalysis.
- Oxidation and reduction: oxidation number, the concept of oxidant and reductant.
- Balance of simple reactions.
- Acids and bases: concepts of acid and base; acidity, neutrality or alkalinity of aqueous solutions; the pH. Hydrolysis. Buffer solutions.
- Fundamentals of organic chemistry: bonds between carbon atoms; formulas and rough texture, concept of isomerism. Aliphatic, alicyclic and aromatic hydrocarbons. Functional groups: alcohols, ethers, amines, aldehydes, ketones, carboxylic acids, esters, amides. Elements of nomenclature.

Physics

- Measures: direct and indirect measures, fundamental and derived quantities, physical dimensions of quantities, knowledge of the metric system and the CGS System of Units, Technician (or Practical) (ST) and International (SI) units of measurement (names and relations between fundamental and derived units), and multiples (names and values).
- Kinematics: kinematic quantities, various motions with particular regard to uniform and uniformly accelerated motion; uniform circular motion; harmonic motion (for all motions: definition and relationship between the kinematic quantities related).
- Dynamic: vectors and vector operations. Forces, motion of forces around a point. Vector composition of forces. Definitions of mass and weight. Acceleration of gravity. Density and specific gravity. Law of universal gravitation, 1st, 2nd, and 3rd laws of motion. Work, kinetic energy, potential energy. Principle of conservation of energy. Impulse and momentum. Principle of conservation of momentum.
- Fluid mechanics: pressure, and its unit of measure (not only in the SI system). Archimedes' principle, Pascal's and Stevin's laws.
- Thermology and thermodynamics: thermometry and calorimetry. Specific heat, thermal capacity. Mechanisms of heat propagation. Changes of state and latent heats. Ideal Gas Laws. First and second law of thermodynamics.
- Electrostatics and electrodynamics: Coulomb's law. Electric field and potential. Dielectric constant. Capacitors. Capacitors in series and in parallel capacitors. Current. Ohm's law. Electrical resistance and resistivity, electrical resistors in series and in parallel. Work, Power, Joule effect. Generators. Electromagnetic induction and alternating currents. Effects of electric currents (thermal, chemical, and magnetic).
