PIANO DEGLI STUDI 2026 -2027
CORSO DI LAUREA MAGISTRALE IN INGEGNERIA BIOMEDICA - Information Technology & AI for Global Health

Esami	Denominazione Corso	Semestre	CFU
1	Advanced processing and AI for biomedical signals	I	6
2	Design, regulation, sustainability and innovation of medical devices	I	9
3	Robotics for biomedical applications	I	9
4	Biomedical Measurements and Instrumentation	I	9
5	Biomedical Engineering for Public and Global Health	II	12
6	GenAI and deep learning for health and wellbeing	II	9
7	Ethical, legal and social issues of innovation in biomedical engineering	II	3
8	Automatic Controls	II	6
9	Desing and prototyping of MedTech systems	I	6
10	Dynamics of complex systems	I	9
11	Internet of Medical Things	I	12
12	Electronics for sensor design in biology and medicine	I	6
	A scelta dello studente	II	12
	Prova finale		12
