CALL FOR ADMISSION TO THE FIRST YEAR
RESERVED FOR NON-EUROPEAN CANDIDATES NOT RESIDENT IN ITALY

Single-Cycle Master's Degree Programme in Medicine and Surgery (LM-41)
Single-Cycle Master's Degree Programme in Medicine and Surgery -"MedTech" (LM-41)

A.Y. 2027/2028

1. GENERAL INFORMATION

This document is the translation of the call for admission issued by the Rector's Decree on 9 November 2026, no. 557 for the Single-Cycle Master's Degree in Medicine and Surgery and in Medicine and Surgery- "MedTech". The Italian version is the official document regulating this call. The document written in English has no legal value. In case of conflicting issues between the English and the Italian version, the Italian version prevails.

Admission to the I year of the **Single-Cycle Master's Degree in Medicine and Surgery** and in **Medicine and Surgery- "MedTech"** for the academic year 2027/2028 is regulated by a selective procedure based on the following available places as indicated below. This procedure is reserved for non-European citizens not resident in Italy who need a long stay visa.

- **36 places available for the Master's Degree Programme in Medicine and Surgery;**
- **12 places available for the Master's Degree Programme in Medicine and Surgery-"MedTech".**

The number of available places may vary in accordance to the Decree of the Ministry of University and Research (M.U.R), pursuant to the provisions of Law n. 264, August 2nd, 1999. The Decree will be published on the website https://www.unicampus.it/it/info/ammissioni-corsi-laurea. In case of a reduction of the number of available places as a result of the ministerial assignment, the candidates enrolled on the basis of the procedures set out in this call for admission will forfeit and compete for any available places in the modalities provided for eligible candidates.

The selective procedure consists in a written test in English, **scheduled for 12 March 2027**, *telematically with remote monitoring*, in accordance with the procedures set out in Annex A, integral part of this call for admission.
A bonus may be added to the score obtained in the written admission test for candidates who have uploaded their valid official International Student Admissions Test (ISAT) Statement of Results, already obtained at the time of application, to the online registration platform before proceeding with payment of the application fee, as specified in Article 6 below.

Candidates may compete with the score obtained for admission to only one of the two aforementioned Single-Cycle Master's Degree in Medicine and Surgery (LM-41) and Single-Cycle Master's Degree in Medicine and Surgery - "MedTech" (LM-41), or for the admission to both Single-Cycle Master's Degree, upon completing two separate online registrations for the admission test, one for each Single-Cycle Master's Degree, within the deadlines and according to the procedures set out in Article 4 below.

In case of available places, a *reallocation* session (tbc) can be activated by the deadlines and manners set out in Article 8 of this call and only in case of remaining places.

It is the candidate's own responsibility to check all notices concerning the selection procedure published on the University's website at https://www.unicampus.it/it/info/ammissioni-corsi-laurea. Publication of notices concerning this selection procedure on the website constitutes official notification for all purposes.

Contacts:
- **Technical assistance with online registration:** click "*Assistenza Tecnica*" (Technical Assistance) at the bottom of the online registration platform (the button is available on every page of the registration form);
- **Enquiries about this Call for Admission and assistance with the admission procedure:** contact the Admissions Office at ammissioni@unicampus.it or call +39 06 22541 8121/9255/9704;
- **Assistance with enrolment:** contact the Registrar's Office at segreteriastudenti@unicampus.it or call +39 06 22541.

2. APPLICATION REQUIREMENTS

2.1 CITIZENSHIP AND EDUCATIONAL QUALIFICATION

The candidates who can participate in the procedure are exclusively non-EU citizens not resident in Italy, who have obtained or will obtain in the academic year 2026/2027 a valid qualification to access to University in their country of origin, in accordance with the provisions published annually by the Ministry for Education, University and Research on the website www.studiare-in-italia.it/studentistranieri.

The only valid academic qualification is the one obtained after at least 12 years of schooling. Candidates who have obtained an educational qualification from a foreign school system are obliged to provide a Declaration of Value (*Dichiarazione di Valore*) issued by the Italian diplomatic representations or, alternatively, a Statement of Verification/Comparability issued by Italian ENIC-NARIC centre (CIMEA)[1]. The Registrar's Office will assess the validity of the foreign qualification for admission to the Course.
In case the local school system only provides for 11 or 10 years of schooling, the academic qualification is only valid if supplemented by one or two years of university study (in this case the candidate must prove to have passed successfully all the exams required for the attended years). For this purpose, the Foundation Year course at University Campus Bio-Medico of Roma is also recognised for this purpose, but only if the candidate has passed the relevant exams.

The following candidates are not eligible for selection under this call for admission:

- citizens with dual nationality, i.e. one Italian or another one from another EU country;
- non - EU citizens regularly resident in Italy;
- citizens of Norway, Iceland and Liechtenstein, Switzerland, the Republic of San Marino and Holy See, shall be treated in the same way as EU citizens.

The aforementioned candidates must compete in accordance with the terms and conditions set out for admission procedures reserved for EU citizens, published on the website https://www.unicampus.it/it/info/ammissioni-corsi-laurea.

Candidates applying for this call violating the aforementioned citizenship and educational requirements will not be included in the merit ranking list.

Please note that pre-enrolment at the university does not in any way guarantee an appointment at the diplomatic-consular offices for the submission of visa applications. It should also be noted that, as already stated in the ministerial circular entitled 'Procedure per l'ingresso, il soggiorno, l'immatricolazione degli studenti internazionali e il relativo riconoscimento dei titoli, per i corsi della formazione superiore in Italia valide per l'anno accademico 2026/2027' ('Procedures for the entry, stay, enrolment of international students and the related recognition of qualifications for higher education courses in Italy valid for the academic year 2026/2027) on page 7, the prior acceptance of a candidate by the university does not confer any right to obtain a visa, given that the issuance of study visas is the exclusive responsibility of the individual diplomatic-consular representations.

2.2 KNOWLEDGE OF ENGLISH LANGUAGE

Admission to the Single-Cycle Master's Degree in Medicine and Surgery and Medicine and Surgery – "MedTech" **requires English language proficiency of at least CEFR level B2 attested by one of the language certifications exclusively listed in Annex B**, which forms an integral part of this Call.

a) **candidates who already have one of the language certifications exclusively listed in Annex B** must attach the certification in the appropriate field of the online application platform before paying the registration fee. After payment, the application can no longer be modified;

[1] Candidates holding a foreign educational qualification who do not already have a copy of their qualification, accompanied by a translation and legalisation by the competent Italian diplomatic or consular mission, must submit it no later than 24 September 2027, together with a Declaration of Value issued by the Italian diplomatic authorities or a Statement of Verification/Comparability issued by the Italian ENIC-NARIC Centre (CIMEA).

b) **candidates who have not attached one of the language certifications exclusively listed in Annex B** in the relevant field of the online application platform by the deadline set out in letter a), **can take the test but will be marked with an asterisk in the MERIT RANKING LIST.** Such candidates, winning and eligible and marked with an asterisk, **have to send their language certification to admission@unicampus.it no later than:**
   - **18 June 2027,** for candidates who took part in the test on 12 March 2027;
   - **10 working days after publication** of the merit ranking (excluding Saturdays, Sundays and public holidays in Italy), for candidates who took part in the *reallocation Session* (tbc).

Statements of equivalence will not be accepted, even if they are issued by Certifiers listed in Annex B, nor will certificates of attendance or merely certificates of participation to the test be accepted.

Candidates who do not present the language certification or who present a different certification from those exclusively listed in Annex B, will be excluded from the enrolment procedure. Furthermore, eligible candidates will be prevented from completing the enrolment process or being called through ranking list scrolling.

The registration fee for the admission procedure is not refundable for any reason and there will be no reimbursement of the tuition fee paid except in cases expressly provided for in this Call. Applicants are therefore invited to obtain on time a language certificate among those listed in Annex B.
It is the candidate's own responsibility to verify that the provided certification is one of those exclusively listed in Annex B.

3. CANDIDATES WITH LEARNING DISABILITIES (SLD) AND OR DISABILITIES

Candidates with certified invalidity or disabilities, pursuant to Law No. 102/2009 and Law No. 104/1992, and candidates with Specific Learning Disorders (SLDs), pursuant to Law no. 170/2010, who require special arrangements or assistive aids to take the admission test, must explicitly request them in their online application, before submitting it, by completing the relevant fields and attaching supporting certification, accompanied by a sworn translation in Italian or English, specifying the essential information concerning the requested accommodations, in order to enable the University to make the necessary arrangements and ensure their proper participation in the test.
The University reserves the right to verify the candidate's certification and undertakes to inform the candidate, in due time for the test, of the aids granted. Only certifications produced in Italian or English will be considered.

3.1 CANDIDATES WITH INVALIDITY OR DISABILITIES

Candidates who submit a civil invalidity certificate or an official disability assessment report within the deadlines and in accordance with the procedures specified in Article 3 shall be granted **additional time, not exceeding 50%** of the standard time allocated to other candidates for completing the test.
Candidates requiring further assistive aids must explicitly request them in the relevant field of the online application form. The University may provide:

- An enlarged-print version of the test questionnaire shall be provided only to candidates with visual impairments;
- The provision of a scribe or a reading assistant shall be assessed on the basis of the supporting certification submitted.

3.2 CANDIDATES WITH LEARNING DISABILITIES

Candidates diagnosed with Specific Learning Disorders (SLDs) must submit, within the deadlines and in accordance with the procedures specified in Article 4, an SLD certificate issued no more than three years before the publication date of this Call for Admission or issued after the candidate reached the age of eighteen, by facilities of the Italian

National Health Service (SSN) or by facilities and specialists accredited by the SSN. The aforementioned certificate must clearly indicate the diagnostic summary and the relevant diagnostic classification codes relating to the certified Specific Learning Disorder. These candidates shall be entitled to **additional time, not exceeding 30%** of the standard time allocated to other candidates for completing the test. Candidates requiring further assistive aids must explicitly request them in the relevant field of the online application form. In any case, the following compensatory tools may be permitted:

- **Non-scientific calculator**, provided to the candidate exclusively for learning disorders affecting mathematical calculation skills or where specifically prescribed in the diagnostic report;
- **Reading assistant appointed by the University**, exclusively in cases of particularly severe specific reading disorders.
- **Enlarged-print version of the test questionnaire**, subject to the supporting certification submitted.

4. REGISTRATION PROCEDURE

Candidates may compete with the score obtained for admission to only one of the two aforementioned Single-Cycle Master's Degree in Medicine and Surgery (LM-41) and Single-Cycle Master's Degree in Medicine and Surgery - "MedTech" (LM-41), or for the admission to both Single-Cycle Master's Degree, upon completing two separate online registrations for the admission test, one for each Single-Cycle Master's Degree, within the deadlines and according to the procedures here set.

The application form must be submitted exclusively online by clicking on the "Register" button on the website https://www.unicampus.it/it/info/ammissioni-corsi-laurea **from 9 November 2026 and no later than 26 February 2027, 1.00 p.m. (CET).**

Registration for admission requires performing all the following actions from 1 to 4 **by the aforementioned deadline**:

1. Registration on the online portal and creation of credentials (username and password)[2];
2. Registration confirmation on the portal through the link that the candidate receives by email. The registration system will generate a unique identification code, referred to as the "Unique ID", which candidates will need in order to check their position on the merit ranking list;
3. Access to the portal with the candidate's credentials and filling in the application form by the aforementioned deadlines;
4. Online payment, by credit card, of the registration fee for the admission test of **€ 100,00** (one hundred/00).

The registration is considered completed only by following steps from point 1 to 4. Payment of the registration fee for the admission test will be automatically enabled once all the mandatory fields of the application form have been completed.

Candidates will receive an email containing a link to confirm the creation of their login credentials for the portal and, subsequently, provided that they have correctly completed the application form and made the online payment, a further email confirming successful registration for the admission procedure. The application is deemed submitted only upon receipt of confirmation of the online payment. At this point, the application can no longer be modified.

An application that has not been submitted correctly is in any case considered incomplete and does not entitle the candidate to participate in the admission procedure. The registration fee for the admission test is non-refundable under any circumstances.

[2]Also candidates who already have login credentials as a result of participating in previous admission procedures at *Università Campus Bio-Medico di Roma* must complete a new registration. For technical assistance with the online admission registration platform, candidates must click on the "*Assistenza Tecnica*" (Technical Support) button, located at the bottom of every page of the registration form.

It is the candidate's responsibility to ensure that all information has been entered correctly and that all documentation required by this Call for Admission, the online registration platform and/or during the enrolment stages has been properly submitted.
The submission of false or incorrect information, or failure to provide the required information, shall result in exclusion from the admission procedure and the final merit ranking list, as well as forfeiture of the right to enrol or cancellation of enrolment.

The list of **admitted candidate to the written test** will be published on the University website at https://www.unicampus.it/it/info/ammissioni-corsi-laurea, **by 5 March 2027.**
A simulator of the written admission test will be available on the registration platform. The candidates may use the simulator for practice purposes.

5. WRITTEN ADMISSION TEST

The **written admission test**, entirely in English, will be held *telematically with remote monitoring* in accordance with the procedures set out in Annex A on **12 March 2027 at 2.00 p.m. (CET).**

The test lasts **1 hour and 40 minutes and consists of 60 multiple-choice questions: Biology (20 questions), Chemistry (20 questions) and Physics (20 questions).**
The syllabuses covering the subjects of the questions are provided in Annex C to this Call for Admission.

Candidates may choose to finish the test before the maximum time allowed by clicking on "close the test" option or use the full time available. In both cases, the examination platform records and saves every action taken up to the last available moment. During the test, the use or consultation of any tools or devices - electronic or others– different from those strictly provided for in Annex A is strictly prohibited.

Points are assigned as follows:
1 point for each correct answer;
-0,2 point for each incorrect answer;
0 points for each not given answer.

The highest achievable score in the written test is a maximum of **60 points**.

6. ADMISSION TO THE MASTER'S DEGREE PROGRAMMES

Admission to the Master's Degree Programmes is based on two separate merit rankings lists: one for the Single-Cycle Master's Degree in Medicine and Surgery and the other for the Single-Cycle Master's Degree in Medicine and Surgery – "MedTech". Each ranking shall be determined on the basis of the total score obtained by each candidate, expressed on a 65-point scale and calculated as set out below.

The maximum total score is 65 points, calculated as the sum of the following components:

- A maximum of 60 points awarded for the UCBM written admission test;
- Up to 5 additional bonus points awarded to candidates who upload their official, valid International Student Admissions Test (ISAT) Statement of Results to the online application platform before paying the relevant application fee, provided that the ISAT results were obtained prior to submitting their application.

The ISAT bonus shall be awarded on the basis of the Overall Score stated on the official ISAT Statement of Results, according to the following table:

Overall Score ISAT	Bonus points
Da 100 a 137	0
Da 138 a 149	1
Da 150 a 162	2
Da 163 a 174	3
Da 175 a 187	4
Da 188 a 200	5

Only the Overall Score stated on the official ISAT Statement of Results shall be considered for the purpose of awarding bonus points. The University reserves the right to verify the results directly with the test provider.

Candidates shall be deemed eligible for admission only if they obtain a score of at least 10 out of 60 in the UCBM written admission test alone. ISAT bonus points shall not count towards the minimum eligibility threshold and shall be considered solely for the purpose of calculating the total score and determining each candidate's position in the relevant merit ranking list.

The **merit ranking list,** in order of score is issued by Decree of the Rector and published on the university website on https://www.unicampus.it/it/info/ammissioni-corsi-laurea, **no later than 17 March 2027.** Each candidate can verify their position in the ranking list by means of the code assigned at the time of registration for the competition procedure from the online platform and referred to as "Unique ID".

7. ENROLMENT PROCEDURE

7.1 PHASE I

To enrol correctly, each winning candidate has to perform the following actions **no later than 10 working days after the publication of the merit ranking** (excluding Saturdays, Sundays and Italian public holidays). To enrol correctly, each candidate must follow the "enrolment instructions" that will be published on the following website https://www.unicampus.it/it/info/ammissioni-corsi-laurea:

a) create their student login credentials on the University platform;
b) using the credentials created, access their personal area and pay €8,500.00 (eight thousand five hundred/00), corresponding to the first instalment of the annual university tuition fee[3];
c) send or hand-deliver– **no later than 10 working days after the publication of the merit ranking list** (excluding Saturdays, Sundays and Italian public holidays) – to segreteriastudenti@unicampus.it the payment receipt of the first instalment of the tuition fee;
d) if already available, a **copy of their educational qualification,** accompanied by an official translation and legalization issued by the Italian diplomatic authorities, **eventually accompanied** by Declaration of Value (*Dichiarazione di Valore*) issued by the Italian diplomatic representations or, alternatively, a Statement of Verification/Comparability issued by Italian ENIC-NARIC centre (CIMEA)[4].

The winning candidate who does not carry out all the steps referred to in points a), b) and c) within 10 working days after the publication of the merit ranking (excluding Saturdays, Sundays and Italian public holidays), **shall be automatically deemed withdrawn.**

[3] The second instalment of the annual university tuition fee must be paid no later than 25 January 2028; the third instalment must be paid no later than 12 April 2028. The amounts of the annual university tuition fee are established in the Tuition Fees and Contributions Regulations for the 2027/2028 academic year, published at https://www.unicampus.it/ammissioni-corsi-di-laurea/tasse-e-contributi/. In the event of any discrepancy between this Call for Admission and the provisions of the Tuition Fees and Contributions Regulations for the 2027/2028 academic year, the latter shall prevail.

[4] Candidates holding a foreign educational qualification who do not already have a copy of their qualification, accompanied by a translation and legalisation by the competent Italian diplomatic or consular mission, must submit it no later than 24 September 2027, together with a Declaration of Value issued by the Italian diplomatic authorities or a Statement of Verification/Comparability issued by the Italian ENIC-NARIC Centre (CIMEA).

Eligible candidates compete for any remaining places (not allocated to winning candidates) according to the merit ranking order. Eligible candidates will be informed of the allocation of any remaining places through a public notice published on the admission procedure website, accessible at https://www.unicampus.it/it/info/ammissioni-corsi-laurea. Notice of remaining places is normally published on Tuesdays and Fridays (except on public holidays in Italy). The notice will specify the positions in the merit ranking list that are allowed to enroll and the date from which candidates may accept the offered place.

Within 5 working days (excluding Saturdays and public holidays in Italy), eligible candidates proceed with the enrolment procedure following the steps established by the above-mentioned points a), b) and c).

The eligible candidate who does not complete all the required steps established by points a), b) and c) within the aforementioned deadline is automatically deemed withdrawn. It is the candidate own responsibility to check in due time the communications published by university on the website.

With reference to the enrolling procedure, University fees are non-refundable under any circumstances, except in the following cases:

- Candidates who do not obtain, during the 2026/2027 school year, the educational qualification required for admission to university in the 2027/2028 academic year;
- candidates who do not obtain by the competent authorities a long-stay visa for study purposes;
- Candidates enrolled conditionally whose enrolment is cancelled as a result of a reduction in the number of places allocated annually by the Minister of Education, Universities and Research.

7.2 PHASE II

Candidates who have completed PHASE I of the registration in the terms and conditions above and within the number of available places, proceed to the registration-PHASE II **from 12 July 2027 and no later than 1:00 p.m. CEST on 23 July 2027**, completing the steps listed below and following the "enrolment instructions" that will be published on the website https://www.unicampus.it/it/info/ammissioni-corsi-laurea:

e) access the student's reserved area on the University platform and payment of the regional tax for the Right to University Education, with the amount of € 140.00 (one hundred and forty/00)[5];

f) send or hand-deliver to the Registrar's Office by mail to segreteria.studenti@unicampus.it the following documents:
   - The receipt confirming payment of the regional tax for the Right to University Education referred to in point e) above;
   - the enrolment form duly completed and signed in all its parts;
   - a copy of their educational qualification, accompanied by an official translation and legalization issued by the Italian diplomatic authorities, eventually accompanied by Declaration of Value (Dichiarazione di Valore) issued by the Italian diplomatic representations or, alternatively, a Statement of Verification/Comparability issued by Italian ENIC-NARIC centre (CIMEA);
   - Withdrawal from studies or authorization to transfer, if the candidate is currently enrolled at another university, in accordance with the applicable regulations.

g) In any case, the enrolled student is required to submit or transmit to the Registrar's Office - **no later than 24 September 2027** - the **declaration of value** of the degree obtained abroad, complete with information on the system for evaluating the diploma in the country of achievement (overall grade, minimum and maximum attainable grade) or, alternatively, the **Statement of Verification/Comparability issued by the Italian ENIC-NARIC Centre (CIMEA)**.

Enrolment shall be considered conditional until the documentation referred to in points e) and f) has been submitted no later than 1:00 p.m. CEST on 23 July 2027 and, if not produced earlier**, the declaration of value of the diploma obtained abroad** or alternatively, the Statement of Verification/Comparability issued by the Italian ENIC-NARIC Centre (CIMEA.) **no later than 24 September 2027 (letter g).**

[5] The amount of the regional tax for the Right to University Education may be subject to change depending on decisions adopted by the Lazio Regional Authority.

The winner candidate who fails to comply with the above-mentioned deadline and procedure shall be deemed to have automatically withdrawn and shall forfeit their right to enrolment.

With reference to the enrolling procedure, University fees are non-refundable under any circumstances, except in the following cases:

- Candidates who do not obtain, during the 2026/2027 school year, the educational qualification required for admission to university in the 2027/2028 academic year;
- candidates who do not obtain by the competent authorities a long-stay visa for study purposes;
- Candidates enrolled conditionally whose enrolment is cancelled as a result of a reduction in the number of places allocated annually by the Minister of Education, Universities and Research.

8. REALLOCATION PROCEDURES (TBC)

In the event of any remaining places following the completion of the admission procedure referred to in this Call for Admission, Università Campus Bio-Medico di Roma reserves the right to open a reallocation procedure by means of a public notice published on the admission procedure webpage, accessible at https://www.unicampus.it/it/info/ammissioni-corsi-laurea. The reallocation procedure, if activated, shall include an online written test with remote proctoring, in accordance with the procedures set out in Articles 5 and 6 above, on the date specified in the public notice. The public notice shall specify the number of available places, the date of the test, the deadlines for online registration and any other relevant procedural deadlines.

Online registration for the procedure will open at the same time as the publication of the public notice concerning the possible availability of remaining places. Online registration for the reallocation procedure requires the completion of all the following steps, numbered 1 to 4, within the deadline specified in the public notice:

1. Registration on the online portal and creation of credentials (username and password)[6];
2. Registration confirmation on the portal through the link that the candidate receives by email. The registration system will generate a unique identification code, referred to as the "Unique ID", which candidates will need in order to check their position on the merit ranking list;
3. Access to the portal with the candidate's credentials and filling in the application form by the aforementioned deadlines;
4. Online payment, by credit card, of the registration fee for the admission test of **€ 100,00** (one hundred/00).

The registration is considered completed only by following steps from point 1 to 4. Payment of the registration fee for the admission test will be automatically enabled once all the mandatory fields of the application form have been completed. Candidates will receive an email containing a link to confirm the creation of their login credentials for the portal and, subsequently, provided that they have correctly completed the application form and made the online payment, a further email confirming successful registration for the admission procedure. The application is deemed submitted only upon receipt of confirmation of the online payment. At this point, the application can no longer be modified.

An application that has not been submitted correctly is in any case considered incomplete and does not entitle the candidate to participate in the admission procedure. The registration fee for the admission test is non-refundable under any circumstances.

It is the candidate's responsibility to ensure that all information has been entered correctly and that all documentation required by this Call for Admission, the online registration platform and/or during the enrolment stages has been properly submitted.

[6]Also candidates who already have login credentials as a result of participating in previous admission procedures at *Università Campus Bio-Medico di Roma* must complete a new registration. For technical assistance with the online admission registration platform, candidates must click on the "*Assistenza Tecnica*" (Technical Support) button, located at the bottom of every page of the registration form.

The submission of false or incorrect information, or failure to provide the required information, shall result in exclusion from the admission procedure and the final merit ranking list, as well as forfeiture of the right to enrol or cancellation of enrolment. The University Campus Bio-Medico of Rome reserves the right to carry out the necessary checks on the declarations made by the candidate.

The list of **candidates admitted to the written test** will be published on the University website at **https://www.unicampus.it/it/info/ammissioni-corsi-laurea, within the deadline set in the Notice.**
A simulator of the written admission test will be available on the registration platform. The candidates may use the simulator for practice purposes. The **merit ranking list referred to the reallocation procedure (tbc)** will be published **within the deadline set in the Notice.**

To enrol correctly, each winning candidate has to complete the following steps **no later than 10 working days after the publication of the merit ranking list** (excluding Saturdays, Sundays and Italian public holidays). To enrol correctly, each candidate has to follow the "enrolment instructions" that will be published on the following website https://www.unicampus.it/it/info/ammissioni-corsi-laurea:

a) create their student login credentials on the University platform;
b) Using the credentials created, access their personal area and pay €8,640.00 (eight thousand six hundred forty/00), corresponding to the first instalment of the annual university tuition fee and the regional tax for the Right to University Education[7];
c) send or hand-deliver to the Registrar's Office by mail to segreteria.studenti@unicampus.it the following documents:
    - The receipt confirming payment of the first instalment and of the regional tax for the Right to University Education referred to in point b) above;
    - the enrolment form duly completed and signed in all its parts;
    - a copy of their educational qualification, accompanied by an official translation and legalization issued by the Italian diplomatic authorities, eventually accompanied by Declaration of Value (Dichiarazione di Valore) issued by the Italian diplomatic representations or, alternatively, a Statement of Verification/Comparability issued by Italian ENIC-NARIC centre (CIMEA);
    - Withdrawal from studies or authorization to transfer, if the candidate is currently enrolled at another university, in accordance with the applicable regulations.

d) In any case, the enrolled student is required to submit or transmit to the Registrar's Office - no later than 24 September 2027 - the declaration of value of the degree obtained abroad, complete with information on the system for evaluating the diploma in the country of achievement (overall grade, minimum and maximum attainable grade) or, alternatively, the Statement of Verification/Comparability issued by the Italian ENIC-NARIC Centre (CIMEA).

The winning candidate who does not carry out all the steps referred to in points a), b) and c) within 10 working days after the publication of the merit ranking (excluding Saturdays, Sundays and Italian public holidays), **shall be automatically deemed withdrawn.**

Eligible candidates compete for any remaining places (not allocated to winning candidates) according to the merit ranking order. Eligible candidates will be informed of the allocation of any remaining places through a public notice published on the admission procedure website, accessible at https://www.unicampus.it/it/info/ammissioni-corsi-laurea. Notice of remaining places is normally published on Tuesdays and Fridays (except on public holidays in Italy). The notice will specify the positions in the merit ranking list that are allowed to enroll and the date from which candidates may accept the offered place.

[7] The second instalment of the annual university tuition fee must be paid no later than 25 January 2028; the third instalment must be paid no later than 12 April 2028. The amounts of the annual university tuition fee are established in the Tuition Fees and Contributions Regulations for the 2027/2028 academic year, published at https://www.unicampus.it/ammissioni-corsi-di-laurea/tasse-e-contributi/. In the event of any discrepancy between this Call for Admission and the provisions of the Tuition Fees and Contributions Regulations for the 2027/2028 academic year, the latter shall prevail.

Within 5 working days (excluding Saturdays and public holidays in Italy), eligible candidates proceed with the enrolment procedure following the steps established by the above-mentioned points a), b) and c).
The eligible candidate who does not complete all the required steps established by points a), b) and c) within the aforementioned deadline is automatically deemed withdrawn. It is the candidate own responsibility to check in due time the communications published by university on the website.

Additionally, **no later than 24 September 2027** each enrolled student must send an email to segreteriastudenti@unicampus.it with:

e) a **copy of the educational qualification,** accompanied by an official translation and legalization issued by the Italian diplomatic authorities;
f) the **Declaration of Value** *(Dichiarazione di Valore)* of the educational qualification obtained abroad, specifying the evaluation system used by the local Secondary School (maximum, minimum and overall score) or, alternatively, the Statement of Verification/Comparability issued by the Information Centre on Academic Mobility and Equivalence (CIMEA).

Enrolment is considered conditional until the submission of the documentation referred to in the points e) and f). In the absence of such documentation, these candidates will be deemed withdrawn.

With reference to the enrolling procedure, University fees are non-refundable under any circumstances, except in the following cases:

- Candidates who do not obtain, during the 2026/2027 school year, the educational qualification required for admission to university in the 2027/2028 academic year;
- candidates who do not obtain by the competent authorities a long-stay visa for study purposes;
- Candidates enrolled conditionally whose enrolment is cancelled as a result of a reduction in the number of places allocated annually by the Minister of Education, Universities and Research.

9. ADDITIONAL LEARNING OBLIGATIONS (OFA)

The admission test is designed to assess the candidates' fundamental knowledge and skills required to successfully attend the Degree Programme.
In order to help students address any gaps in their knowledge of subjects preparatory to the first-year courses, all students enrolled under this Call for Admission will be required to take a test in Mathematics, Physics and Chemistry before the start of classes. Students who fail to answer at least 60% of the questions correctly will be assigned one or more Additional Learning Requirements (OFA). These requirements must be fulfilled before taking the corresponding examinations included in their study plan and, in any case, within the first year of study. Alternatively, all assigned Additional Learning Requirements (OFA) may be considered fulfilled if students have passed the corresponding examinations.
Further information on how to fulfil the Additional Learning Requirements (OFA) is available on the relevant webpage of the University's website https://www.unicampus.it.

10. RESPONSIBLE OFFICER FOR THE ADMINISTRATIVE PROCEDURE

Dr Marina Mocciaro, Head of the Student Services Office at Università Campus Bio-Medico di Roma, located at Via Álvaro del Portillo No. 21, 00128 Rome, Italy, is appointed as the **Officer Responsible for the Administrative Procedure**.

11. KEY DEADLINES OF THE ADMISSION PROCEDURE

The main deadlines of the admission procedure are summarized below for information purposes only. For all stages of the procedure, the candidate shall rely on the extended points of the call for admission.

ACTIVITY	DEADLINES	REFERENCES
Registration online	From 09/11/2026 to 26/02/2027, 1.00 p.m. CET on http://www.unicampus.it/eng/medicine-and-surgery/admissions	Article 4
Publication of the candidates admitted to the written exam and instructions email	No later than 5 March 2027 http://www.unicampus.it/eng/medicine-and-surgery/admissions	Article 4 Annex A
Technical test check requirements	As in the instructions received by email	Annex A
Written test *(telematically)*	12/03/2027, 2.00 p.m. (CET)	Article 5
Publication merit ranking list and consultation of the results	No later than 17/03/2027 on http://www.unicampus.it/eng/medicine-and-surgery/admissions	Article 6
Enrolment I Deadline	Within 10 working days after publishing the merit ranking, payment of the first instalment of the tuition fee	Article 7
Payment regional tax	No later than 23 July 2027	
Sending High School Qualification (Declaration of Value or certification CIMEA)	No later than 24 September 2027 to segreteriastudenti@unicampus.it	
second instalment of the tuition fee	25/01/2028, payment of the second instalment of the tuition fee	
third instalment of the tuition fee	12/04/2028, payment of the third instalment of the tuition fee	

The reallocation procedure will be activated only in case of available places. The main terms therefore will be published only in case of activation.

ANNEX A

INSTRUCTIONS FOR THE WRITTEN TEST IN TELEMATIC MODE WITH REMOTE MONITORING

1. Starting from
   - **8 March 2027 (for the 12/03/2027 test)**
   - within the deadline set in the Notice, referred to the reallocation procedure (eventually),

   each candidate will receive an email with technical instructions for the correct configuration of the computer used for the test (so-called *check requirements*).
2. It is the candidate's responsibility to **perform the check requirements following the instructions received via email**, verifying that:
   a) the Google Chrome plugin of Proctor Exam, necessary to ensure proper surveillance during the exam, is installed correctly;
   b) the video, audio and Internet connection meet the minimum technical requirements necessary for the test to run correctly.

   Admission to the test is subordinated to the technical verification referred to in (a) and (b) above.
3. Each candidate, following the outcome of the checks referred to in paragraph 2, receives a further email with the link to access the test and an indication of the **time slot in which to connect** for the preliminary identification procedures.
4. **Test day:**
   a) during the time slot indicated for identification, the candidate must activate the tools necessary for the control and the conduct of the examination and perform the identification operations, managed through an automated procedure. It is the responsibility of the candidate to have available a valid identification document;
   b) the link to access the test is activated no earlier than 2.00 P.M (CET);
   c) the supervisory staff supervises the proper conduct of the test via webcam.
5. In order to be able to take the admission test referred to this call for admission, it is necessary to have the following specific hardware and software requirements:
   a) Hardware:
   - Computer/Laptop (PC or MAC) with webcam, microphone and speakers;
   - Smartphone/Tablet.

   Both devices are simultaneously required for the performance of the test.

   b) Software and Internet connection:
   - Operating System Computer/Laptop: Windows 8 or subsequent systems, Linux, MAC-OS 10.14 or subsequent systems;
   - Browser: it is mandatory to use GOOGLE CHROME (version 81.0 or subsequent updates);
   - Internet connection: minimum upload and download speed of 1 Mbps.
   - Smartphone or tablet (Android min v.4.1 - iOS min. v.8) equipped with video camera.
6. It is also required to download an APP to the candidates' smartphone/tablet (34MB) from Google Play or App Store. Connection to a Wi-Fi line is preferable.
7. Candidates who arrive after the closing of the identification procedures are not allowed to access to the test, assuming no relevance to the justification of the delay. In case of technical problems on the test day (e.g. a breakdown in the network infrastructure), foreclosing candidates from completing the test, the University reserves the right to set up a special session exclusively for those candidates.
8. The exam platform records and saves every interaction (audio and video recording and screen sharing). During the course of the test, the Supervisory Committee will have access to all interactions of each candidate. The records will also be available to the Commission after the test is concluded. Data is acquired from servers located in the European Union and stored for a period of 12 months.
9. The examination platform provides a timer that automatically resets the actual time, in any case of anomaly. Therefore, any technical problems that may occur on individual computers will be handled promptly by the technical assistance staff.
10. It is absolutely forbidden the use of cell phones, calculators, tablets, online-enabled devices, printed books, manuscripts and notes during the test. The candidate can use some blank sheets of paper and a pen to perform calculations.

ANNEX B

TESTS AND CERTIFICATIONS RECOGNIZED FOR THE ASSESSMENT OF ENGLISH LANGUAGE PROFICIENCY

CERTIFICATION BODY TEST	CEFR SCORE/LEVEL
ETS	
TOEFL IBT (Test of English as a Foreign Language)	35-45 B1 46-93 B2 94-104 C1 115-120 C2
Ex TOEFL (non IBT)	35-45 B1 46-93 B2 94-104 C1 115-120 C2
TOEIC (Test of English for International Communication)	550-794 B1 795-940 B2 945-990 C1
CAMBRIDGE ENGLISH	
PET/PET FOR SCHOOLS B2 FIRST/FIRST FOR SCHOOLS C1 ADVANCED	B1 B2 C1
Linguaskill	140-159 B1 160-179 B2 180-199 C1 200-220 C2
IELTS	
(International English Language Testing System)	4.0-5.0 B1 5.5-6.5 B2 7.0-8.0 C1 8.5-9.0 C2
TRINITY COLLEGE LONDON	
ISE — Integrated Skills in English	ISE I B1 ISE II B2 ISE III C1 ISE IV C2
EDEXCEL / PEARSON	
PTE Academic	30-36 B1 37-58 B2 59-79 C1 80-86 C2

CERTIFICATION BODY TEST	CEFR SCORE/LEVEL
PTE General	Level 2 –B1 Level 3 –B2 Level 4 –C1 Level 5 –C2
CITY AND GUILDS (PITMAN)	
Certificate in International ESOL Diploma	Level 1 –B2 Level 2 –C1 Level 3 –C2

Candidates who have attended a secondary school/university entirely taught in English for at least one academic or school year are exempt from submitting a language certification. (Education taught in English, limited to only certain subjects, even for several consecutive years, does not qualify for exemption.)

Such candidates must submit, within the deadlines and in accordance with the procedures established for the submission of language certifications, a certificate of attendance issued by the secondary school/university, explicitly stating the period of attendance and the language in which the courses were taught.

ANNEX C

Syllabus regarding the content of the Admission Test

The required skills and knowledge reflect the educational preparation provided by schools offering teaching and learning activities consistent with the Italian National Guidelines for Upper Secondary Schools and the Guidelines for Technical and Vocational Institutes, particularly in preparation for the State Examinations.

BIOLOGY

- **The chemistry of living organisms.** Water and its properties; hydrophilic and hydrophobic substances. Chemical composition, structure and function of the main biological molecules. Carbohydrates: monosaccharides or simple sugars (glucose, fructose, ribose and deoxyribose); disaccharides (sucrose, lactose); polysaccharides (glycogen, starch, cellulose). Lipids (fatty acids, triglycerides, phospholipids, cholesterol). Proteins (amino acids, polypeptide chains, primary, secondary, tertiary and quaternary structures). Nucleic acids (nucleotides, DNA, RNA).
- **Cell organisation.** Prokaryotic and eukaryotic cells. Organisation of the eukaryotic cell. General characteristics and fundamental functions of the plasma membrane, nucleus, ribosomes, endomembrane system (endoplasmic reticulum, Golgi apparatus, lysosomes), mitochondria and cytoskeleton. Differences between animal and plant eukaryotic cells: cell wall, chloroplasts and other plastids, vacuoles. Introduction to the evolution of the eukaryotic cell: endosymbiotic theory.
- **Fundamentals of genetics.** Mendelian genetics. Chromosome structure in prokaryotes and eukaryotes; definition of the genome. Encoding of genetic information in DNA and RNA molecules. Genes and the genetic code. Replication, transcription, translation and general principles of gene expression regulation. Human genetics: inheritance of monofactorial and multifactorial traits; autosomal and X-linked hereditary diseases. Heredity and environment.
- **Mitosis and meiosis. Gametogenesis, fertilisation and early stages of development.** Cell division in prokaryotes and eukaryotes. Mitosis and meiosis; cytokinesis; cell cycle. Gametogenesis and fertilisation. Early stages of development of the fertilised egg (cleavage and gastrulation).
- **Animal and human anatomy and physiology.** Hierarchy of multicellular organisation: tissues, organs and organ systems. Structure and functions of the four main types of tissue (epithelial, connective, muscular and nervous). Structure and function of the main human organ systems: integumentary, muscular, skeletal, digestive, respiratory, circulatory, excretory, reproductive and nervous systems. Homeostasis.
- **Bioenergetics.** Energy flows and the biological significance of photosynthesis, respiration, glycolysis and fermentation. The energy currency of cells: ATP. Catabolism and anabolism. Autotrophic and heterotrophic metabolism. Enzymatic catalysis. Energy content of the main food groups.
- **Fundamentals of biotechnology.** Traditional biotechnology. Innovative biotechnology (recombinant DNA technology). Applications of biotechnology in medicine. Biotechnology in agriculture and environmental applications.
- **Fundamentals of biodiversity and evolution.** Characteristics distinguishing Bacteria, Archaea and Eukarya. Introduction to the characteristics of viruses. Mechanisms of evolution: mutations, genetic variability, natural selection, adaptation, speciation and extinction.
- **Fundamentals of ecology.** Interactions between organisms and between organisms and their environment at different levels of the biological hierarchy (individuals, populations, communities and ecosystems). Food chains (autotrophs/primary producers and heterotrophs/secondary producers – consumers). Biotic interactions: differences between competition, predation, parasitism, mutualism and commensalism.

CHEMISTRY

- **Macroscopic properties of matter.** Particle model of matter at the macroscopic scale and states of matter. Macroscopic properties of gases, liquids and solids, and physical transformations (kinetic theory, fixed points, phase transitions). Homogeneous and heterogeneous mixtures and techniques for separating mixtures. Fundamental laws of chemistry (Lavoisier, Proust, Dalton, Gay-Lussac) and Avogadro's number. Ideal gas laws (Boyle, Charles, Gay-Lussac).
- **Microscopic properties of matter and composition of substances.** Particle model of matter at the microscopic scale: Dalton's atomic model. Elements, simple substances and compounds. Molecules, ions and chemical formulae. Atomic mass and relative atomic mass (Ar), relative molecular mass (Mr). Mendeleev's periodic table of elements: periods and groups. Atomic models and quantum numbers. Electron configuration of atoms and periodic properties.
- **Chemical bonding and intermolecular forces.** Ionic, covalent and metallic bonding. Electronegativity. Chemical bonds: the Lewis model. The VSEPR model and molecular geometries. Oxidation number. Intermolecular forces and hydrogen bonding.

- **Stoichiometry of chemical reactions.** Balancing chemical reaction equations. Definition of the mole and Avogadro's constant. Conversion of mass quantities into moles. Relationship between the number of moles (amount of substance) and mass in chemical reaction equations.
- **Chemical reactions.** Exothermic and endothermic reactions. Chemical equilibrium. Reaction rates and factors affecting reaction rates.
- **Compounds.** Properties and nomenclature of compounds. Nomenclature of substances and compounds (IUPAC and traditional nomenclature). Properties of the main inorganic compounds. Properties of metals.
- **Properties of solutions.** Conductivity, colligative properties and solubility. Units of concentration (mol dm^{-3}, g dm^{-3}, percentage composition) and related calculations.
- **Acid-base and redox reactions.** Definition of acids and bases. Common acids and bases. Acid and base strength and definition of pH. Acid-base reactions and pH indicators. Definition of hydrolysis and buffer solutions. Oxidation and reduction. Identification of oxidising and reducing agents in a simple redox chemical transformation or reaction equation. Balancing simple redox reaction equations.
- **Organic chemistry.** Origins and characteristics of hydrocarbons. Alkanes, alkenes, alkynes and cycloalkanes. Benzene and aromatic compounds. Carbon hybridisation. Organic compounds: structure and nomenclature. Isomerism and the relationship between structure and properties. Alcohols, aldehydes, ketones and carboxylic acids. Amines and amino acids.
- **Applied chemistry.** Chemical transformations in everyday life. Correct interpretation of commercial product labels (beverages, food products, medicines and chemical products). Main environmental issues (acid rain, greenhouse effect, smog, etc.). Safety regulations.

PHYSICS

- **Physical quantities and their measurement**. Fundamental and derived physical quantities. International System of Units (SI). Multiples, submultiples and scientific notation. Scalar and vector quantities. Vectors and vector operations: addition, scalar product and vector product.
- **Kinematics**. Description of motion. Average and instantaneous velocity and acceleration. Uniform rectilinear motion and uniformly accelerated motion. Motion in a plane. Uniform circular motion: angular velocity and centripetal acceleration. Harmonic motion: frequency and period.
- **Dynamics**. Concept of force as an interaction between bodies. Forces as applied vectors. Principle of inertia. Mass and Newton's second law of motion. Examples of forces: gravitational force (weight), elastic force, static and kinetic friction. Action and reaction: Newton's third law of motion. Impulse and momentum. Principle of conservation of momentum. Torque and angular momentum. Work and kinetic energy. Conservative forces and potential energy. Principle of conservation of mechanical energy. Power. Practical units of measurement of energy and power.
- **Fluid mechanics**. Density and compressibility of fluids. Gases and liquids. Hydrostatics: pressure and the principles of Pascal, Stevin and Archimedes. Common units of pressure. Fluid dynamics: flow, flow rate and the continuity equation. Ideal fluids and Bernoulli's equation. Viscous forces in real fluids.
- **Thermodynamics**. Equilibrium, concept of temperature and thermometers. Concept of heat and calorimetry. Mechanisms of heat transfer. Heat capacity and specific heat capacity. Changes of state and latent heat. Ideal gas laws. First and second laws of thermodynamics.
- **Electrostatics, electric circuits and fundamentals of electromagnetism**. Forces between electric charges and Coulomb's law. Electric field and electric potential. Electric fields in materials and dielectric constant. Capacitance and capacitors. Equivalent capacitance of capacitors connected in series and parallel. Electromotive force generators. Potential difference, electric current, resistance and Ohm's law. Equivalent resistance of resistors connected in series and parallel. Joule heating effect and power dissipation. Magnetic fields and permanent magnets. Magnetic field generated by an electric current. Force acting on an electric charge and on electric currents in a magnetic field.
- **Optics. Geometrical optics**: reflection and refraction. Lens equation. Image formation. Interference and diffraction phenomena. Microscopes: magnification and resolving power of an objective lens. Electromagnetic radiation spectrum: from radio waves to X-rays.
