# RESEARCH YEARBOOK

## 2018

## The Research Yearbook 2018

reports main facts, activities and scientific results achieved by our institution in the 2018 calendar year, with three main goals:

### Dissemination and Promotion

- Provide a comprehensive digest of the main ongoing research projects, simplified directory of the expertise, scientific equipment, technological facilities and services, research units and other organisational structures available in our University.
- Provide answers to knowledge and innovation needs of our stakeholders.

### Accountability

- Provide direct source of information on how resources have been used to our main sponsors and external supporters.

### Self-assessment

- Provide a clear set of internal and external benchmarks to our research community, to stimulate continuous improvement of our performance and of the quality of our research work.

## 2018 Research Facts and Figures

### Scientific production

Confirmed in 2018 a comparable level to that of the best Italian universities, both in qualitative and quantitative terms, in relation to the size of the University and to the number of Faculty members.

- ▶ 500+ publications, 2000+ cumulative Impact Factor (I.F.), 2200+ normalized I.F.;
- ▶ about **60%** of such publications appeared on journals belonging to the first quartile (Q1) of the Scopus/SCImago international periodicals ranking;
- ▶ average of **4** papers with I.F. per Faculty member;
- ▶ **18%** of Faculty members included in the Top Italian Scientists.

### Third Mission Activities

- ▶ **39** patents (20 families) owned/co-owned by UCBM in the field of rehabilitation engineering, microengineering, regenerative medicine, biomedical instrumentation, cancer diagnostics and food analysis;
- ▶ **5** spin-off companies accredited by UCBM;
- ▶ **160** clinical studies approved by Ethics Committee;
- ▶ public engagement activities to meet special social needs (e.g.: prevention campaigns, counselling service, etc.);
- ▶ “Lettere dal Campus” magazine, **30,000** users on social media and a pool of **8 million** annual contacts.

### Core Facilities for Research

- ▶ Molecular and Genetic Biology
- ▶ Electron and Confocal Microscopy
- ▶ Flow Cytometry / Cell Sorting
- ▶ Room Cells
- ▶ Radioisotope Laboratory
- ▶ Clean Room
- ▶ Machine Shop

### Main funding bodies of 2018 ongoing projects

- ▶ European Commission
- ▶ National Institute for Insurance against Accidents at Work (INAIL)
- ▶ Italian Ministry of Education, University and Research
- ▶ Italian Ministry of Health
- ▶ Italian Ministry of Economic Development
- ▶ Lazio Regional Authority
- ▶ European Foundation for the Study of Diabetes
