

**CALL FOR ADMISSION TO THE FIRST YEAR
ACADEMIC YEARS 2023/2024 AND 2024/2025
RESERVED FOR ITALIAN, EUROPEAN AND NON-EUROPEAN CITIZENS REGULARLY RESIDENT IN ITALY**

***Master's Degree Programme in Medicine and Surgery (LM-41)
Master's Degree Programme in Medicine and Surgery - "MedTech" (LM-41)***

1. GENERAL INFORMATION

This document is only the translation of the call for admission issued by the Rector's Decree on 21st December 2022, no. 485 for the Master's Degree Programmes in Medicine and Surgery and Medicine and Surgery- "MedTech". **The Italian version is the official document regulating this call. The document written in English has no legal value. In case of conflicting issues between the English and the Italian version, the Italian version prevails.**

Admission to the I year of the **Master's Degree Programmes in Medicine and Surgery and Medicine and Surgery- "MedTech"** – both courses entirely taught in English - are regulated by a selective procedure as follows:

- a) **for admission to the a.y. 2023/2024, a written test will be held in Rome, scheduled for the 16th of March 2023.** The time and the location of the test, along with the list of admitted candidates and assigned sectors, will be published by 9th March 2023 on the University's website on <https://www.unicampus.it/it/info/ammissioni-corsi-laurea>.

Candidates may compete with the score obtained in the written test on 16th March 2023 for either one and the other course. Therefore, to compete for both Courses - admission to the Master's Degree Programme in Medicine and Surgery and/or admission to the Master's Degree Programme in Medicine and Surgery - "MedTech" - it is necessary to complete two separate online registrations for the admission test, one for each degree course, by the deadlines and manners set out in Article 5 below.

The first two winning candidates in the merit ranking for the a.y. 2023/2024 for the *Medicine and Surgery Course*, and the first winning candidate in the merit ranking for the *Medicine and Surgery- "MedTech" Course* (with a ISEE Diritto allo Studio certificate, not exceeding € 45,000 (fourtyfive thousand/00)¹, will be awarded with **2 (two) scholarship for the Medicine and Surgery Course and 1 (one) scholarship for the Medicine and Surgery- "MedTech" Course**, equal to 100% of the University tuition fee for the legal duration of studies (6 years). The scholarships are financed by the University Campus Bio-Medico di Roma and reserved for European and non-EU citizens resident in Italy. The deadlines and manners for acceptance and the requirements for maintaining the scholarship in the years following the first year of the course are contained in the Annex A to this call for admission.

- b) **for admission to the a.y. 2024/2025 each candidate, including students in the penultimate year of High School on the test date, may participate as follows:**

- on 16th March 2023 (coincident with the test referred to in letter a)
- upon specific registration, a written test with equal difficulty as the one to be held on 16th March 2023. The session(s) will be identified in a subsequent provision to be adopted by the end of December 2023 and published on the dedicated web page, accessible from <https://www.unicampus.it/it/info/ammissioni-corsi-laurea>. In the event the University identifies different periods for the admission test sessions, each candidate may take only one test each of the identified periods.

¹ To this purpose, when submitting the online application and before payment of the registration fee, a copy of ISEE Diritto allo Studio 2023 or alternatively ISEE Diritto allo Studio 2022 must be provided.

Candidates may compete with the score obtained in the written test on 16th March 2023 for either one and the other course. Therefore, to compete for both Courses - admission to the Master's Degree Programme in Medicine and Surgery and/or admission to the Master's Degree Programme in Medicine and Surgery - "MedTech" - it is necessary to complete two separate online registrations for the admission test, one for each degree course, by the deadlines and manners set out in Article 5 below.

In order to form the merit ranking for admission to the a.y. 2024/2025, candidates may use the best score obtained in the written tests taken in the aforementioned sessions or the unique score of each candidate (in case of participation in one test session only) will be considered.

The subsequent provision for admission to the a.y. 2024/2025, to be adopted by the end of December 2023 and published on the dedicated web page <https://www.unicampus.it/it/info/ammissioni-corsi-laurea>, will indicate:

- test date(s), location and deadlines to be included in the merit ranking;
- manners and deadlines for publication of the merit ranking.

Candidates who took part in the test of 16th March 2023, as graduates or students of the last high school year in 2022/2023, can keep the score obtained in the test to be included in the merit ranking for the a.y. 2024/2025, but only if not enrolled in the a.y. 2023/2024 according to the terms and conditions set out in Article 8.

A simulator of the written admission test will be available on the registration platform. The candidates may use the simulator for practice purposes.

Registration for the tests enables the candidates to access: (i) a simulator online of the written admission test, tool for preparation and self-assessment, (ii) the results of the tests taken, also in comparison with the results obtained by other candidates in the same test in order to allow the evaluation of one's own positioning (iii) access to the test taken with the score obtained and the number of correct/not given/erred questions.

For all the procedures referred to in this call, the University reserves the right to modify the deadlines due to *force majeure*. In the event of a postponement of the test, the University may extend and/or re-open the deadline for online registration for admission.

It is the candidate's responsibility to check all notices regarding the competition procedure published on the University's website at <https://www.unicampus.it/it/info/ammissioni-corsi-laurea> in the dedicated sections to admission to the Degree Programmes of interest.

Contacts:

- **technical assistance** for the online registration, use the link or the email address given at the bottom of the registration form;
- **assistance with the admission procedure**, admission@unicampus.it, (0039) 06.22541.8121/9255;
- **assistance with the enrolment procedure**, segreteriastudenti@unicampus.it.

2. PLACES AVAILABLE

For each academic year (2023/2024 e 2024/2025), in the following the number of available places:

- **Master's Degree Programme in Medicine and Surgery, 60 places;**
- **Master's Degree Programme in Medicine and Surgery-"MedTech", 40 places.**

The number of available places may vary in accordance to the Decree of the Ministry of University and Research (M.U.R), pursuant to the provisions of Law n. 264, August 2nd, 1999. The Decree will be published on the website <https://www.unicampus.it/it/info/ammissioni-corsi-laurea>. In case of a reduction of the number of available places

as a result of the ministerial assignment, the candidates enrolled on the basis of the procedures set out in this call for admission will forfeit and compete for any available places in the modalities provided for eligible candidates.

3. APPLICATION REQUIREMENTS

3.1. CITIZENSHIP

The only candidates who can participate in the procedure are Italian and European citizens and NON - European citizens regularly resident in Italy (art. 39(5) of Legislative Decree no. 286/1998, as subsequently amended and supplemented).

Applicants who participate in this Call for Admission violating the citizenship requirements set forth in this article shall be excluded from the procedure.

3.2. EDUCATIONAL QUALIFICATION

Candidates can register for the admission test for the a.y. 2023/2024 only if they meet the citizenship requirements set out in Article 3.1 above and if they are **already graduates or will obtain in the academic year 2022/2023 a valid qualification to access to University** in their country of origin, in accordance with the provisions published annually by the Ministry for Education, University and Research on the website www.studiare-in-italia.it/studentistranieri.

Candidates can register for the admission test for the a.y. 2024/2025 (including the test on 16th March 2023) only if they meet the citizenship requirements set out in Article 3.1 above and, on the test date:

- having already obtained a High School Diploma, in Italy or another EU country, in accordance with the provisions published annually by the Ministry for Education, University and Research on the website www.studiare-in-italia.it/studentistranieri;
- will obtain in the a.y 2022/2023 an Italian High School Diploma, in Italy or another EU country, in accordance with the provisions published annually by the Ministry for Education, University and Research on the website www.studiare-in-italia.it/studentistranieri;
- will obtain in the a.y 2023/2024 (in the penultimate year of High School) an Italian High School Diploma, in Italy or another EU country, in accordance with the provisions published annually by the Ministry for Education, University and Research on the website www.studiare-in-italia.it/studentistranieri;

The only academic qualification is the one obtained after at least 12 years of schooling. Candidates who have obtained an educational qualification from a foreign school system are obliged to provide a Declaration of Value (*Dichiarazione di Valore*) issued by the Italian diplomatic representations or, alternatively, a certificate issued by the Information Centre on Academic Mobility and Equivalence (CIMEA).

In case the local school system only provides for 11 or 10 years of schooling, the academic qualification is only valid if integrated with one or two years of university (in this case the candidate must prove to have passed successfully all the exams required for the years attended). The Foundation Year course at University Campus Bio-Medico of Roma is also recognised, for this purpose, but only if the candidate has passed the relevant exams.

Candidates applying for this call violating the aforementioned requirements concerning their educational qualification and in accordance with current legislation forfeit from enrolment.

3.3. KNOWLEDGE OF ENGLISH LANGUAGE

Admission to the Master's Degree Programmes in Medicine and Surgery and Medicine and Surgery- "MedTech" **requires the knowledge of English, at least B2 level of CEFR attested by one of the language certifications exclusively listed in Annex B**, integral part of this call for admission.

Admission to the a.y. 2023/2024 requires:

- a) **candidates who are in possession of one of the language certifications exclusively listed in Annex B** must attach the certification in the appropriate field of the online application platform before paying the registration fee. After payment, the application can no longer be modified;
- b) **candidates who have not attached one of the language certifications exclusively listed in Annex B** in the relevant field of the online application platform by the deadline set out in letter a), **can take the test but will be marked with an asterisk in the PROVISIONAL MERIT RANKING** referred to in article 7. Those candidates have to proceed as follows: winning or eligible candidates in the *provisional merit ranking* that have not already attached one of the language certification exclusively listed in Annex B in their application, **have to access again to the registration platform, from 20th April 2023 and no later than 20th June 2023, 1.00 p.m. (CEST)** with their credentials, attaching their language certification.

Candidates who do not present the language certification or who present a different certification from those exclusively listed in Annex B, will be excluded from the enrolment procedure.

No later than 7th July 2023 the FINAL MERIT RANKING will be published, with the only names of those candidates who have produced an appropriate language certificate within the terms indicated above.

Furthermore, eligible candidates will be excluded to complete the enrolment process – PHASE II referred to in article 8, or being called by scrolling, if:

- they do not upload or send correctly a language certification by the above described deadlines and manners;
- they upload or send a language certification different from those exclusively listed in Annex B.

Candidates that apply for the a.y. 2024/2025 and do not attach a language certification exclusively listed in Annex B when applying have to present a language certification within the terms and manners that will be identified in a subsequent provision to be adopted by the end of December 2023 and published on the dedicated web page <https://www.unicampus.it/it/info/ammissioni-corsi-laurea>.

The registration fee for the admission procedure is not refundable for any reason and there will be no reimbursement of the tuition fee paid except in cases expressly provided for in this Call. Applicants are therefore invited to obtain on time a language certificate among those listed in Annex B. It is the candidate's own responsibility to verify that the provided certification is one of those exclusively listed in Annex B.

4. CANDIDATES WITH LEARNING DISABILITIES (SLD) AND OR DISABILITIES

Candidates with invalidity and disabilities, pursuant to Law 104/92, and candidates with learning disabilities, pursuant to Law no. 170/2010, who require special conditions or special aids for the examination, must explicitly insert their request in the online application. They have to attach the related certification proving the disability or SLD level, issued in the country of residence and accompanied by a sworn translation in Italian or English that specifies the essential elements regarding the aforementioned benefits in order to enable the University to prepare accordingly to guarantee an equal participation in the tests. **The University reserves the right to verify the candidate's certification and undertakes to inform the candidate, in due time for the test, of the aids granted. Only certifications produced in Italian or English will be considered.**

5. REGISTRATION PROCEDURE

The application form for the admission test on 16th March 2023 (valid for admission to the a.y. 2023/2024 and also valid for the a.y. 2024/2025) must be submitted exclusively online by clicking on the appropriate button on the website <https://www.unicampus.it/it/info/ammissioni-corsi-laurea> from **22th December 2022 and not later than 3rd March 2023, 1.00 p.m. (CET)**.

Candidates may compete with the score obtained in the written test on 16th March 2023 for either one and the other course, for admission to the Master's Degree Programme in Medicine and Surgery and for admission to the Master's Degree Programme in Medicine and Surgery -"MedTech". However, it is necessary to complete two separate online registrations for the admission test, one for each degree course, by the deadlines and manners set out below.

Registration for admission requires performing all the following actions from 22th December 2022 and not later than 3rd March 2023, 1.00 p.m. (CET):

1. Registration on the online portal and creation of credentials (username and password);
2. Registration confirmation on the portal through the link that the candidate receives by email;
3. Access to the portal with the candidate's credentials and filling in the application form **from 22th December 2022 and not later than 3rd March 2023, 1.00 p.m. (CET)**;
4. Online payment, by credit card, of the registration fee for the admission test of **€ 170,00** (one hundred and seventy/00).

Eligible candidates for the academic year 2023/2024, if they intend to compete for scholarships referred to in article 1, letter a) of this call for admission, must also upload in the specific field of the online application platform the ISEE *Diritto allo Studio* 2023 certification or, alternatively, the ISEE *Diritto allo Studio* 2022 certification before paying the registration fee for the admission test. Once the test registration fee has been paid, the application form can no longer be modified.

By following steps from point 1 to 4, the registration procedure is considered completed. Once all the mandatory fields of the registration form have been completed, the payment of the registration fee is automatically enabled.

The candidate receives an email containing the link to confirm the creation of the portal access credentials and then, if correctly filled in the application form and made the online payment, a further email confirming that the application has been submitted. The application is submitted only if received the confirmation of the online payment. At this point, the registration can no longer be modified.

An application that has not been submitted correctly is in any case considered incomplete and does not permit the participation in the competition. The registration fee for the test is not refundable under any circumstances.

It is the candidate's responsibility to check the correct insertion of the data requested by the online registration platform. The insertion of untruthful or incorrect data, or failure to enter the same, will result in exclusion from the procedure and from the final ranking. The University Campus Bio-Medico of Rome reserves the right to carry out the necessary checks on the declarations made by the candidate

The list of **candidates admitted to the written test** will be published on the University website at <https://www.unicampus.it/it/info/ammissioni-corsi-laurea>, **by 9th March 2023**.

A simulator of the written admission test will be available on the registration platform. The candidates may use the simulator for practice purposes.

6. WRITTEN ADMISSION TEST

The written admission test (entirely in English) lasts **1 hour and 50 minutes** and consists of **80 multiple-choice**

questions as follows: Logic (50 questions), Biology (10 questions), Chemistry (10 questions), Mathematics and Physics (10 questions). The syllabuses for each discipline are contained in Annex C to this call for admission.

The test questions are extracted from an archive owned by the University Campus Bio-Medico of Rome, through a randomised procedure carried out by a qualified external actor in charge for this purpose. In consideration of the provisions of Article 1 letter b) of this call, different tests of equal difficulty will be prepared for each exam session, in accordance with the criteria for balancing the various question types.

By the end of the test (1 hour and 50 minutes) or in any case within a voluntary advanced delivery, each candidate must answer a further 6 reserve questions that will not count towards the test score unless an anomaly emerges in one or more questions. Only in this case, having ascertained the possible criticality, the Responsible for the proceeding, having obtained the opinion of the General Commission, may consider neutralising the question and replacing it with the reserve question of the same type in order to guarantee the objectivity of the assessments and equal treatment between candidates.

During the test, candidates are not allowed to use any electronic device, or any other types such as calculators, tablet, internet enabled devices, printed books, manuscripts or notes. Each candidate has the right to finish the test before the maximum time expires as well as to use all the minutes available.

The delivery of the test will not be allowed in the last 10 minutes of the scheduled time.

A candidate who wants to leave the venue must hand in the test and leave the location.

Points are assigned as follows:

1 point for each correct answer;

-0,2 point for each incorrect answer;

0 points for each not given answer.

The highest achievable score in the written test is a maximum of 80 points.

Candidates with a total score of not less than 16/80 are considered eligible for admission to the first year. In the event of an equal final score, the candidate with the highest score in the Logic questions prevails;. in the event of a further tie, the candidate with the highest score in the Biology, Chemistry, Mathematics and Physics questions prevails. In the event of a further tie, the candidate with the youngest age prevails.

7. ADMISSION TO THE MASTER'S DEGREE PROGRAMMES

Admission to the Master's Degree Programmes is based on the merit rankings, one referred to the Master's Degree Programme in Medicine and Surgery and one to the Master's Degree Programme Medicine and Surgery- "MedTech". The rankings are based on total achieved score, in eightieths, which will determine the position in the final merit ranking.

The **provisional merit rankings**, in order of score, are issued by Decree of the Rector and published on the university website on <https://www.unicampus.it/it/info/ammissioni-corsi-laurea>, **by 22nd March 2023.**

The following candidates are considered winners:

- the first 60 candidates in the merit list for the Master's Degree Programme in Medicine and Surgery;
- the first 40 candidates in the merit list for the Master's Degree Programme in Surgery- "MedTech".

Candidates with a total score of not less than 16/80 are considered eligible for admission to the first year. Candidates with a total score of less than 16/80 are considered **not eligible** for admission to the first year.

Each candidate can verify their position in the ranking list by means of the code assigned at the time of registration for the competition procedure from the online platform and referred to as “Unique ID”.

8. ENROLMENT PROCEDURE ACADEMIC YEAR 2023/2024

PHASE I

Following the publication of the *provisional merit ranking*, the **winning candidates** must proceed with the enrolment procedure – Phase I **from 23rd March 2023 and no later than 6th April 2023, 1.00 p.m. (CEST)** performing the following actions published on the university website <https://www.unicampus.it/it/info/ammissioni-corsi-laurea>:

- a) create the student’s credentials on the University platform;
- b) with the student’s credentials, login to the reserved area and pay of € 8.000,00 (eight thousand/00) equal to the amount of the first tuition fee^{2;3};
- c) send or hand in the payment receipt of the first instalment of the first tuition fee (letter b) **from 23rd March 2023 and no later than 6th April 2023, 1.00 p.m. (CEST)** to the Student Services Office by fax to (+39) 06.225411939 or by certified mail to segreteria.studenti@postasicura.unicampus.it.

The winning candidate who does not carry out all the operations referred to in the aforementioned points a), b) and c) no later than 6th April 2023, 1.00 p.m. (CEST), shall be automatically deemed withdrawn.

Eligible candidates, from 11th April 2023 on, compete for any remaining places (not allocated to winning candidates by 6th April 2023) in order of the merit ranking.

Eligible candidates will be informed of the availability of places by the Student Services Office via email (segreteria.studenti@postasicura.unicampus.it) to the email address provided by each candidate on the application form for the admission procedure. **It is the candidate’s own responsibility to ensure the receipt of communications from the University within the appropriate time.**

The number of candidates recalled at each scrolling, as a result of non-enrollment or withdrawals, is published on the website <https://www.unicampus.it/it/info/ammissioni-corsi-laurea>.

Eligible candidates, **within and no later than 24 hours following the email sent by the Student Services Office, may proceed with the enrolment procedure** carrying out all the steps referred to in the aforementioned points a), b), e c). The eligible candidate who, after being regularly notified, does not respect the above-mentioned deadline of 24 hours after the email sent by the Student Services Office, is automatically deemed withdrawn.

PHASE II

By **7th July 2023**, upon verification of submission of language certifications, the *final ranking list* referred to in article 3.3 will be published by the Rector’s Decree on the website <https://www.unicampus.it/it/info/ammissioni-corsi-laurea>

² The amount of the regional tax for the right to higher education, equal to € 140.00 (one hundred and forty/00), must be paid by 26th July 2023; the amount of the second instalment of the tuition fee, equal to € 5,000.00 (five thousand/00), must be paid by 25th January 2024; the amount of the third instalment of the tuition fee, equal to € 5,000.00 (five thousand/00), must be paid by 11th April 2024. The amount of the regional tax for the the right to higher education may vary according to the deliberations of the Lazio Region. **Bank charges for the arrangement of transfers are not included in the amount of the instalment.**

³ Candidates awarded with one of the scholarships referred to in point 1 of this call for admission must, **under penalty of withdrawal, formally accept the scholarship by 28th March 2023** in accordance with the procedure that will be communicated to them by the University with exemption from payment of the tuition fee. In case the awarded candidates do not accept the scholarship by **28th March 2023**, they will forfeit their right to the scholarship but can still proceed with the ENROLMENT by 6th April 2023 according to the procedure set out in article 8 of this call for admission, referring to all successful candidates; scholarships not accepted will be awarded in order of ranking, with a possible refund of the first instalment to candidates who have attached the ISEE Diritto allo Studio certification or 2023 below € 45.000,00 (fourty five thousand/00) to the online application and who have already enrolled.

[laurea](#)).

Candidates included in the *final ranking* who have already completed the enrolment PHASE I, must proceed to enrolment PHASE II from 12th July 2023 and no later than 26th July 2023, 1.00 p.m. (CEST) following the “enrolment instructions” that will be published on the following website <https://www.unicampus.it/it/info/ammissioni-corsi-laurea>:

- d) access the student’s reserved area on the University platform and payment of the regional tax for the Right to higher education, with the amount of € 140.00 (one hundred and forty/00)⁴; and the enrolment form;
- e) send or deliver to Student Services Office by fax to (+39) 06.225411939 or by certified mail to segreteria.studenti@postasicura.unicampus.it **no later than 26th July 2023 the following documents:**
 - the payment receipt of the regional tax for the Right to higher education;
 - the enrolment form duly completed and signed in all its parts;
 - a self-declaration of achievement of the Diploma of Higher Secondary Education with indication of the grade, year and Institute that issued it, with a declaration of value in case of foreign educational qualifications;
 - the withdrawal from studies or no impediment to transfer in case of enrolment at another University

Enrolment is considered conditional until the submission of the documentation referred to in the points d) and e). In the absence of such documentation, after 26th July 2023 1.00 p.m. (CEST), these candidates will be deemed withdrawn from enrolment.

From 28th July 2023 eligible candidates compete for any remaining places (not allocated to winning candidates by 26th July 2023) according to merit ranking order.

Eligible candidates will be informed of the availability of places by the Student Services Office via certified email to the email address provided by each candidate on the application form during the admission procedure. **It is the candidate’s own responsibility to ensure the receipt of communications from the University within the appropriate time.**

The number of candidates recalled at each scrolling, as a result of non-enrollment or withdrawals, is published on the website <https://www.unicampus.it/it/info/ammissioni-corsi-laurea>.

Eligible candidates, **within and no later than 24 hours following the sending of the email by the Student Services Office must proceed with the enrolment procedure** carrying out all the steps referred to in the aforementioned points **a), b), c), d) and e)**. The eligible candidate who, after being regularly notified, does not respect the above-mentioned deadline of 24 hours following the sending of the email by the Student Services Office is automatically deemed withdrawn.

The amount of the tuition fee referred to in article 8 can only be refunded to:

- candidates who do not obtain the High School Diploma in the school year 2022/2023;
- candidates, enrolled under conditions, who, as a result of the reduction in the number of places assigned annually by the Ministry for Education, University and Research, cease to be enrolled;
- candidates awarded with the scholarship financed by the Campus Bio-Medico University of Rome for the a.y. 2023/2024, taken over the withdrawal of exempted candidates.

9. ADDITIONAL LEARNING OBLIGATIONS (OFA)

Additionally, all students who have completed their enrolment in accordance with the call for admission have to take a further test. This test aims at verifying any *Additional Educational Obligations (OFA)* in Mathematics, Physics and Chemistry. The test consists in a 30-questionS test as follows: Mathematics (10 questions), Physics ((10

⁴ The amount of the regional tax for the Right to higher education may vary according to the deliberations of the Lazio Region.

questions) and Chemistry (10 questions).

Candidates who do not answer correctly at least 6 questions out of 10 (for each subject) are admitted with OFAs for the subject they didn't pass the threshold.

In order to make up for the learning obligations (OFAs), the aforementioned candidates have to follow specific training courses. They will be informed at the beginning of the semester how to attend specific courses. In particular, OFAs must be filled before taking the relative exams foreseen in the study plan and in any case within the first year. Fulfilment of OFAs will be verified by the course lecturers.

You can find further information concerning the OFAs on the specific web page: <https://www.unicampus.it>.

10. SUMMARY OF TERMS ADMISSION A.Y. 2023/2024

The main terms of the procedure are summarised below. For all stages of the procedure, the candidate shall rely on the extended points of the call for admission.

ATTIVITÀ	TERMS AND MODALITY	REFERENCES
Registration online (valida also for candidates of the penultimate year)	from 22/12/2021 to 03/03/2023, 1.00 p.m. CET on https://www.unicampus.it/it/info/ammissioni-corsi-laurea	Article 5
Publication of admitted candidates to the written test and logistics	within the 09/03/2023 on https://www.unicampus.it/it/info/ammissioni-corsi-laurea	Article 1 and 5
Written admission test	Rome, 16/03/2023 (time and location within 09/03/2023 on https://www.unicampus.it/it/info/ammissioni-corsi-laurea)	Article 1, 6
Publication provisional merit ranking	within 22/03/2023 on https://www.unicampus.it/it/info/ammissioni-corsi-laurea	Article 7

Payment of III instalment of the tuition fee	within 11/04/2024	

SCHOLARSHIP ACCEPTANCE PROCEDURE

For admission to the academic year 2023/2024, the first two winning candidates in the merit ranking for the Medicine and Surgery Course and the first winning candidate in the merit ranking for the Medicine and Surgery-“MedTech” Course (with the ISEE certification Diritto allo Studio non superior of € 45.000 (quarantacinquemila/00)⁵) will be awarded with **2 (two) scholarship for the Medicine and Surgery Course and 1 (one) scholarship for the Medicine and Surgery- “MedTech” Course**. Each scholarship is equal to 100% of the University tuition fee for the legal duration of studies (6 years). The scholarships are financed by the University Campus Bio-Medico di Roma and reserved for for euopean and non-eu citizens resident in Italy.

Scholarship beneficiaries, under penalty of forfeiture, must formally accept the scholarship **within 28th March 2023**, as specified in article 8 and note 3 of this call for admission.

SCHOLARSHIP RETENTION REQUIREMENTS

Students who have been awarded the scholarship referred to in point 1 of this Call for Admission may retain the benefit in the years following the first one within the legal duration of the course if, **by 31st October** of each year:

- a) they have acquired at least the same number of Academic Credits - ECTS (European Credit Transfer System - Credito Formativo Universitario - CFU) as shown in the tables hereunder:

<i>Corso di Laurea in Medicina and Surgery</i>	
Course Year	n. Academic credits (ECTS/Obtainable Academic Credits)
II	42/53
III	106/123
IV	169/184
V	209/233
VI	272/292

<i>Corso di Laurea in Medicina and Surgery-“MedTech”</i>	
Course Year	n. Academic credits (ECTS/Obtainable Academic Credits)
II	50/62
III	93/113
IV	139/167
V	181/217
VI	233/277

- b) they have obtained a grade point average (GPA) in the exams relating to the total credits obtained at least equal to 27/30. The grade point average is rounded up to the next integer for decimal values of 5 or more.

In the event of forfeiture, revocation or withdrawal by students who have been awarded the scholarship, the remaining places will be allocated to those students who have obtained the highest number of ECTS with the highest average in the year preceding the year of allocation. This procedure, which may eventually be activated with a specific call for applications, is reserved for students enrolled at Campus Bio-Medico University of Rome in the academic year 2023/2024 who have an annual income (ISEE Diritto allo Studio) below € 45,000.00 (fourty five thousand/00).

⁵ To this purpose, when submitting the online application, a copy of ISEE Diritto allo Studio 2023 or alternatively ISEE Diritto allo Studio 2022 must be provided.

Certifier	Level	English certifications for the 4 skills
Cambridge Assessment English	C2	Certificate of Proficiency in English (CPE)
	C1	Certificate in Advanced English (CAE)
	B2	First Certificate in English (FCE)
	B2 and higher	Linguaskill
City and Guilds (Pitman)	C2	Level 3 Certificate in International ESOL Diploma Mastery C2
	C1	Level 2 Certificate in International ESOL Diploma Expert C1
	B2	Level 1 Certificate in International ESOL Diploma Communicator B2
Edexcel / Pearson Ltd	C2	PTE General Level 5 Proficient
		PTE Academic Score ≥ 85
	C1	PTE General Level 4 Advanced
		PTE Academic Score 76-84
	B2	PTE General Level 3 Upper Intermediate
		PTE Academic Score 59-75
IELTS	C2	IELTS band 8.5 - 9.0
	C1	IELTS band 7.0 - 8.0
	B2	IELTS band 5.5 - 6.5
TCL Trinity College London	C2	Integrated Skills in English (ISE) IV
	C1	Integrated Skills in English (ISE) III
	B2	Integrated Skills in English (ISE) II
TOEFL ETS	C1	TOEFL score 110-120
		TOEFL iBT at least score 95
	B2	TOEFL score 87-109
		TOEFL iBT at least score 72

The following candidates are not required to provide a language certification:

- a) candidates who have attended at least one year of high school **entirely taught in English** (having taken only certain subjects taught in English, even if for several consecutive school years, does not qualify for exemption);
- b) candidates who have taken the **BMAT test**.

Candidates referred to in letter (a) must provide, within the terms indicated above for the submission of language certification, a declaration of attendance issued by the High School with an explicit statement of the period of attendance and the language of teaching.

Candidates referred to in letter (b) must provide for the submission of the language certification, within the terms

indicated in article 2 of this call, the final evaluation report in Section 3 English.

ANNEX C

Syllabus regarding the content of the Admission Test

For admission to the course a general knowledge in the fields of literature, history, philosophy, social and institutional studies is required, as well as the ability to analyse written texts, logical and mathematical reasoning skills.

The knowledge and the skills required are, however, those promoted by educational institutions that organize educational and teaching activities consistent with the Ministerial Programmes, especially in view of the State Examinations and also refer to the scientific disciplines of Biology, Chemistry, Physics, and Mathematics.

Biology

- The chemistry of living organisms.
- The biological importance of weak interactions.
- The organic molecules found in living organisms and their functions.
- The role of enzymes.
- The cell as the basis of life.
- Cell theory. Cell size. The prokaryotic and eukaryotic cell in animals and plants. Viruses.
- The cell membrane: structure and functions - transport through the membrane.
- Cellular structures and their specific functions.
- Cell cycle and cell division: mitosis and meiosis - chromosomes and chromosome maps.
- Bioenergetics.
- The energy assessment of cells: ATP.
- Redox reactions in living organisms.
- The energetic processes: photosynthesis, glycolysis, aerobic respiration and fermentation.
- Reproduction and heredity.
- Life cycles. Sexual and asexual reproduction.
- Mendelian Genetics. Fundamental laws and applications.
- Classical genetics: chromosome theory of heredity; patterns of heredity.
- Molecular Genetics: structure and replication of DNA, the genetic code, protein synthesis. The DNA of prokaryotes. The structure of the eukaryotic chromosome. Genes and regulation of gene expression.
- Human genetics: transmission of mono- and multifactorial characters; hereditary diseases linked to the X chromosome and autosomal
- Biotechnology: Recombinant DNA technology and its applications.
- Heredity and environment.
- Mutations. Natural and artificial selection. Evolutionary theories. The Genetic basis of evolution.
- Anatomy and physiology of animals and man
- Animal tissues
- Anatomy and physiology of systems and equipment in humans and their interactions.
- Homeostasis.

Chemistry

- The constitution of matter: states of matter; heterogeneous systems and systems homogeneous; compounds and elements.
- Ideal Gas Laws.
- The structure of the atom: elementary particles; atomic number and mass number, isotopes, electronic structure of atoms of different elements.

- The periodic system of elements: groups and periods; transition elements; periodic properties of the elements: atomic radius, ionization potential, electron affinity; metallic character. Relations between electronic structures, position in the periodic system of elements and properties.
- Chemical bonding: ionic bonding, covalent bonding, and metallic bonding. Energy binding. Polarity of bonds. Electronegativity.
- Fundamentals of inorganic chemistry: nomenclature and main properties of inorganic compounds: oxides, hydroxides, acids, salts.
- The chemical reactions and stoichiometry: molecular and atomic mass, Avogadro's number, mole concept and its application, stoichiometry elementary balance of simple reactions, the different types of chemical reaction.
- Solutions: solvent properties of water; solubility; The main ways of expressing the concentration of solutions.
- Equilibria in aqueous solution.
- Elements of chemical kinetics and catalysis.
- Oxidation and reduction: oxidation number, the concept of oxidant and reductant.
- Balance of simple reactions.
- Acids and bases: concepts of acid and base; acidity, neutrality or alkalinity of aqueous solutions; the pH. Hydrolysis. Buffer solutions.
- Fundamentals of organic chemistry: bonds between carbon atoms; formulas and rough texture, concept of isomerism. Aliphatic, alicyclic and aromatic hydrocarbons. Functional groups: alcohols, ethers, amines, aldehydes, ketones, carboxylic acids, esters, amides. Elements of nomenclature.

Physics

- Measures: direct and indirect measures, fundamental and derived quantities, physical dimensions of quantities, knowledge of the metric system and the CGS System of Units, Technician (or Practical) (ST) and International (SI) units of measurement (names and relations between fundamental and derived units), and multiples (names and values).
- Kinematics: kinematic quantities, various motions with particular regard to uniform and uniformly accelerated motion; uniform circular motion; harmonic motion (for all motions: definition and relationship between the kinematic quantities related).
- Dynamic: vectors and vector operations. Forces, motion of forces around a point. Vector composition of forces. Definitions of mass and weight. Acceleration of gravity. Density and specific gravity. Law of universal gravitation, 1st, 2nd, and 3rd laws of motion. Work, kinetic energy, potential energy. Principle of conservation of energy. Impulse and momentum. Principle of conservation of momentum.
- Fluid mechanics: pressure, and its unit of measure (not only in the SI system). Archimedes' principle, Pascal's and Stevin's laws.
- Thermology and thermodynamics: thermometry and calorimetry. Specific heat, thermal capacity. Mechanisms of heat propagation. Changes of state and latent heats. Ideal Gas Laws. First and second law of thermodynamics.
- Electrostatics and electrodynamics: Coulomb's law. Electric field and potential. Dielectric constant. Capacitors. Capacitors in series and in parallel capacitors. Current. Ohm's law. Electrical resistance and resistivity, electrical resistors in series and in parallel. Work, Power, Joule effect. Generators. Electromagnetic induction and alternating currents. Effects of electric currents (thermal, chemical, and magnetic).

Mathematics

- Sets of numbers and algebra: natural numbers, integers, rational and real numbers. Sorting and comparison; order of magnitude and scientific notation. Operations and their properties. Proportions and percentages. Powers with integer exponents, rational and their properties. Radicals and their properties. Logarithms

(base 10 and base e) and their properties. Elements of combinatorics. Algebraic expressions, polynomials. Major products, nth power of a binomial, factoring polynomials. Algebraic fractions. Algebraic equations and inequalities of the first and second grade. Systems of equations.

- Functions: fundamental notions about the functions and their graphical representations (domain, codomain, sign, maxima and minima, and monotonicity, etc.). Elementary functions: algebraic integer and fractional, exponential, logarithmic, trigonometric. Composite functions and inverse functions. Trigonometric equations and inequalities.
- Geometry: Polygons and their properties. Circumference and circle. Measurements of lengths, areas, and volumes. Isometries, similarities, and equivalences in the plan. Loci. Measure of angles in degrees and radians. Sine, cosine, tangent of an angle and their significant values. Trigonometric formulas. Solving triangles. Cartesian reference system in the plane. Distance between two points and the midpoint of a segment. Equation of the line. Terms of parallelism and perpendicularity.
- Distance of a point from a line. Equation of the circle, the parabola, hyperbola, of the ellipse and their representation in the Cartesian plane. Pythagorean Theorem. Euclid Theorem (first and second).
- Probability and Statistics: Frequency distributions depending on the type of character and the main graphical representations. Definition of random experiment and event. Probability and frequency.
